## Toll Hits 15; Guards Fail In Peace Bid

LOS ANGELES (AP) — National Guardsmen forced their way with rifle fire and bayonets today through the riot-torn streets of the Los Angeles Negro district. But violence continued to spread in the fourth day of looting and burning.

The toll: 15 dead, hundreds injured. The dead included a sheriff's deputy slain by looters and a Negro sniper killed by guardsmen.

Steel-helmeted troopers early today cleared a path through pockets of lawlessness on the city's Southeast Side but could not restore peace.

Rioters leap-frogged ahead of the troops. Arsonists set new fires after they passed. Other bands of Negroes in cars struck miles from the riot center in white sections of the city.

Whole blocks of buildings in the Negro section of Watts have been burned to the ground since the rioting began Wednesday night over the arrest of a Negro motorist by white police.

All the rioters are Negro. They battled police and firemen with guns looted from shattered stores and attacked white motorists — with shouts of "Here, comes whitey!" and "Kill them, kill them!"

Few whites ventured into the 98-per-cent Negro area sometimes called Los Angeles' "black ghetto."

At dawn a police official, who declined use of his name, reviewed the night's street fighting and said:

"We lost the battle. But not the point of surrender. We just have to bring more men in today."

Police called for National Guard help Friday when 1,000 law officers could not restore order.

The governor's office and local authorities declared a state of insurrection—short of martial law—and the first 2,000 troops of the 40th Infantry was diverted from summer training to the embattled streets.

Police said 5,000 National Guardsmen will be on the street today.

California Gov. Edmund G. Brown cut short a vacation in Greece today and flew back to direct attempts to restore order.

He told newsmen at Athens he had been in touch with his office and was convinced the riots were spontaneous, not planned.

A psychiatrist in Los Angeles attributed the rioting to anger at the whites—and distrust of them—in the Negro sections where Los Angeles minorities are held in what is termed de facto segregation.

One fireman was killed and another critically hurt when a wall collapsed on them. They were fighting a fire in a looted market.

A huge portion of the Negro area was virtually a city after midnight shooting outbreaks became more frequent.

Col. Irving Taylor, the guard commander, said one trooper shot and killed the sniper. He was firing from a building across the street on a police sub-

## Chicago's Police Quell Race Riot

CHICAGO (AP)—The Chicago area's worst racial outbreak in a dozen years was brought under control early today by more than 150 policemen. Officials arranged quick meetings with Negro business, civic and civil rights leaders in an attempt to prevent further violence.

Police said the racial outbreak was the most violent since a racial strike of 1952 in suburban Cicero when then Gov. Adlai E. Stevenson called out the National Guard.

Three newspaper reporters were among those injured—Michael McGovern of Chicago's American who was kicked and punched by several rioters, Edmund J. Rooney of the Chicago Daily News, who was struck in the head by an object and Michael Roster of United Press International, who was hit on the shoulder by a brick. None was seriously hurt.

Police and FBI agents on the scene as observers were checking to determine whether Communist elements were attempting to incite more violence.

Leaflets found near the scene read in part:

"The cops and the Daley machine had this coming. The people are in the right, the cops in the wrong. After years of frame-ups, brutalities, and intimidations the black people are throwing off control of the same rulers who are making war on

## B52s Blast Red Targets In Viet

SAIGON, South Viet Nam (AP) — Giant American B52 bombers from the U.S. Strategic Air Command hit Viet Cong positions only 17 miles from North Viet Nam today, a U.S. military spokesman announced.

Vietnamese government troops followed up the raid with one of the largest offensives ever staged by the 1st Army Corps, U.S. spokesmen said.

First reports indicated there was no immediate contact with the enemy.

Military sources said 14 Viet Cong were killed in the initial phase of the operation. They said government casualties were light.

There was no immediate report on results of the B52 strike. U.S. military spokesmen declined to say how many bombs were dropped. Such information had been reported after the eight previous B52 raids in South Viet Nam.

A briefing officer said a new directive made the number of planes and details of the bombs dropped classified material. He said as far as he knew all the planes returned safely.

About 2,800 more U.S.

Marines landed at Chu Lai today to beef up the Leatherneck force in South Viet Nam.

Brig. Gen. Frederick Karch said there are now about 7,000 Marines in the Chu Lai area and about 29,000 in areas northward, which include the big Da Nang Air Base and the Hue-Phu Bai region.

Today's arrivals are members of the 1st Battalion, 7th Regiment of the 1st Marine Division. They made the trip from Okinawa.

The eight-engine B52's hit targets in the Ba Long Valley, 90 miles northwest of the Da Nang base, where two Viet Cong battalions have long operated. A Viet Cong battalion consists of 300 to 500 men.

Most of the previous B52 raids were against targets in a jungle area known as D Zone about 30 miles north of Saigon.

As air strikes on the valley continued, ground troops moved in.

It was considered likely that the bulk of the Viet Cong force could slip through the jungle trails that weave through the mountainsides. However, mili-

## 4-Month Extension Ordered To Bolster Ranks In Viet Nam

WASHINGTON (AP) — The Navy moved today to bolster its ranks for the war in Viet Nam by ordering an extension for four months in enlistments of all regular Navy and Marine Corps personnel.

The extensions were ordered in a telegram sent Friday night by Secretary of the Navy Paul H. Nitze to all major Navy and Marine Corps commands. The Pentagon confirmed the order early today after news of it began to leak out at some of the commands that had been notified.

The extension follows by less than a month the Navy's decision to draft men for the first time in nearly 10 years.

Navy enlistments have been lagging, and an appeal by Nitze for voluntary extension of tours drew a disappointing response.

The extension order affects neither reservists on active duty nor those who already have volunteered to extend their enlist-

## Police Levy Vote Planned In Township

A resolution to submit a 1.5-mill levy proposal to voters of Liverpool Township in the Nov. 2 election to provide funds for broadened police protection was approved by the township trustees at a meeting Friday night.

The five-year levy would provide about \$11,000 annually for police salaries and equipment.

The trustees previously have been petitioned by some 400 residents for broadened police service for traffic control and minor incidents.

However, trustees said no funds are available for increased police service.

At present, Police Constables Lawrence Twyford of LaCroft and Leonard Wtters of Shady-side are paid \$50 a month for part-time police duty, paid out of the general fund.

Trustees said the addition of another officer is planned if the levy is approved.

Ronald Wathey of Glenmoor submitted an application for police officer last night, but was advised no one would be appointed pending the outcome of the levy.

In other action, bills totaling \$2,285 were paid. The next meeting will be Aug. 20.

## 7 Dead In Sandusky

## Wife, 26, Kills Family, Herself

SANDUSKY, Ohio (AP) — "She said she was going to shoot them all," sobbed Mrs. Virginia Barnes. "She was going to do it because her husband was going to run away with a Sandusky woman."

Mrs. Barnes, 28, a neighbor of Harold E. Sartin, 37, and his wife Mary, 26, said she knew the Sartins were having marital troubles because Mary Sartin told her.

Mrs. Sartin killed her husband, her five children, Rita, 6; Harold Jr., 5; Kenneth, 3; David, 2, and Bryan, 7 months, then killed herself Friday. She used a .32-caliber pistol, said Erie County Coroner Joseph Buder.

"She told me she had bought a gun and was going to use it," said Mrs. Barnes. "But I didn't believe her. She's been saying that for a couple of years."

Mrs. Barnes said the Sartin's domestic trouble began when the family moved into their small, one-story concrete-block house in 1963.

Lately, Sartin had been sleeping in the garage, Mrs. Barnes said. His body, clothed in night clothes, was found in a double

bed in the garage behind the house. He had been shot three times in the head, Buder said. Mrs. Sartin was found on the floor of a bedroom. All the children were in the room. Each was killed with a single shot in the side of the head.

"This was going to be their last day together," Mrs. Barnes said. "Mary told me Harold was leaving with this woman as soon as he got paid. They were supposed to be going to Australia."

Mrs. Barnes said Mrs. Sartin wrote a letter to the woman "so the woman, whoever she is, would know why she did it."

A letter was picked up from the Sartin home about two hours before Mrs. Mary Taylor of Port Clinton, Mrs. Sartin's sister, discovered the bodies about 3 p.m. She had stopped by for a visit.

"They're dead, they're dead," she screamed. A neighbor, Mrs. Charles Moore, called police.

Sartin was an employee of the U.S. Gypsum plant five miles northwest of here.

Buder said the shootings took place about 2 a.m., more than 12 hours before the bodies were found.

## Hunt Resumed For Ohio Man Alone In Sailboat

FALMOUTH, England (AP) — A fleet of amateur searchers prepared to hunt again today for American newsman Robert Manry, the lone sailor crossing the Atlantic in a 13½-foot sailboat.

Sea and air searchers failed Friday to sight the 48-year-old Cleveland, Ohio, newspaper copy editor, who is aboard the Tinkerbelle. It was four days since he had been seen.

Heavy seas hampered the hunt. A Royal Air Force crew reported 30-foot waves.

It had hoped to drop a radio and emergency food pack to Manry. He was believed to be 100 miles or more off the Cornish resort of Falmouth where his 13-year-old daughter, Robin, and 11-year-old son, Douglas, were waiting.

Manry's wife, Virginia, 46, took part in the search Friday.

She was taken by an official of her husband's newspaper, the Cleveland Plain Dealer, on a trawler which left Falmouth early Thursday.

Strong headwinds may have blown Manry off course, said officials at Falmouth. They believe he might be as much as

200 miles out to sea, with his normal pace of about 40 miles a day halved by southeasterly winds and rough seas.

The winds may have swept Manry far to the north of his planned course toward Southern Ireland. That would make his approach to Falmouth more difficult and much longer.

Manry set out from Falmouth, Mass., 76 days ago on his 3,200-mile journey.

He was last seen at noon Monday, 287 miles from his goal. It would be a record performance if he completes the trip.

The Royal Air Force suspended search flights for the weekend but has scheduled a new one for Monday.

Coast Guard stations reported they had received no word from ships off the coast of Britain or Southern Ireland as to Manry's whereabouts.

Crews are still pouring into Falmouth hoping to welcome Manry at the end of his voyage.

## Sept. 9 Ruling Due On Union Picket Action

## Judge Refuses To Intercede In Rift With Commission

Hancock County Circuit Judge Ralph Pryor will decide Sept. 9 whether to revoke an injunction limiting the number of pickets at Waterford Park race track.

He set the date Friday after receiving a petition from officials of Teamsters Local 412 which is attempting to organize pari-mutuel clerks, maintenance men and other track employees.

However, the judge refused to intercede in a dispute between the union and the West Virginia Racing Commission.

The union sought to file a suit in circuit court against a commission regulation used to dismiss workers who honored a Teamsters' picket line last month.

The union contends the workers were not given seven days notice before their dismissal as required by commission rules.

Judge Pryor said the case should be filed in Kanawha County Circuit Court or appealed to the West Virginia Supreme Court.

## 4 In Hospital As Two Cars Hit Head-On

Three members of a Cleveland family and a Georgetown youth were hospitalized following a head-on auto collision early this morning on Route 30 in the vicinity of the Half Moon Lounge near the Pennsylvania line, Hancock County sheriff's deputies reported.

David Friend, 24, of 5928 Lorain Ave., Cleveland, was admitted to East Liverpool City Hospital with a fractured right hand, multiple lacerations, abrasions, contusions and a sprained left ankle.

His wife, Judy Elizabeth, suffered a probable fracture of the right wrist and a possible cerebral concussion. Debra, their daughter, received abrasions of the right knee and a loosened tooth.

All three were listed in "fair" condition at the hospital today, as was John Mackall, 19, of Georgetown R.D. 1, driver of the other vehicle. A passenger, James Hobbs, also of Georgetown R.D. 1, was treated for

Taylor said both were Negroes.

Fifty-two police officers, eight firemen, and two guardsmen were injured as the military reinforcements joined in the battle to quell the looting and burning. More than 300 civilians were hurt.

Over 500 rioters were arrested. Police reopened a long-closed jail to house the prisoners.

Isolated instances of looting, burning or fighting spread to downtown Los Angeles, West Los Angeles, Pasadena, the Wilshire district and elsewhere.

Around 2 a.m. a task force of guardsmen and shotgun-armed police began a massive drive to halt a looting, burning mob heading toward the downtown area.

A heavy guard was thrown around the Civic Center police headquarters after rioters tossing gasoline bombs started a fire only 13 blocks away.

Gangs that had prowled on foot switched to cars and drove to new districts to cause trouble, police said.

The fire department estimated that flames alone caused \$10 million damage. At least 1,000 firemen were on the job. The sky glowed orange from countless blazes but there also were dark patches where power had failed.

## Worst Outbreak In Years

## Chicago's Police Quell Race Riot

CHICAGO (AP)—The Chicago area's worst racial outbreak in a dozen years was brought under control early today by more than 150 policemen. Officials arranged quick meetings with Negro business, civic and civil rights leaders in an attempt to prevent further violence.

Police engaged in a wild battle with several hundred Negroes in a West Side area for more than seven hours, in the second straight night of violence.

Eighteen policemen and 47 civilians—most of them Negroes—were injured in the latest outbreak, mostly by flying bottles, bricks and stones.

At least 105 persons were arrested. Numerous store windows were smashed and merchandise looted.

Fire trucks, responding to false alarms, criss-crossed the area with sirens screaming.

Albert Raby, a leader in the recent civil rights demonstrations in Chicago, hurried back from a meeting in Birmingham, Ala., to make a personal appeal for an end of rioting.

Raby called off a scheduled demonstration in the South Side neighborhood of Mayor Richard J. Daley so police assigned to

the marchers would be free to work in the riot area.

Police said the racial outbreak was the most violent since a racial strike of 1952 in suburban Cicero when then Gov. Adlai E. Stevenson called out the National Guard.

Three newspaper reporters were among those injured—Michael McGovern of Chicago's American who was kicked and punched by several rioters, Edmund J. **\$47 Billion Paid Out****Jobless Insurance Plan Launched 30 Years Ago**

WASHINGTON (AP) — Starting with a \$15 check to Neills B. Rudd of Madison, Wis., more than \$47 billion has been paid out to jobless Americans since the nation's unemployment insurance program was launched 30 years ago today.

Rudd didn't get his check for more than a year after President Franklin D. Roosevelt had signed the depression-born program into law Aug. 14, 1935. It took that long for the states to build up enough funds and iron out technicalities to start paying benefits.

Rudd, back at work at the Brock Engraving Co. when the check arrived, wasn't really in dire straits for the money by then.

But for millions of Americans since, the weekly unemployment check in hard times has been a lifesaver. Many economists say the checks served as a major bulwark to the economy in such times.

Secretary of Labor W. Willard Wirtz, seeking the first sweeping changes in the program since it began, says the economy probably would have collapsed without it.

"It has kept millions of men and women and their children from what would otherwise have been bankruptcy, personal as well as financial," Wirtz said in testifying before Congress on President Johnson's proposal to expand the program.

Wisconsin, where the now-deceased Rudd drew the first unemployment benefits paid under the federal law, had set up a state system three years earlier.

The present unemployment compensation director from Wisconsin, Paul A. Raushenbush, is opposing the proposed new federal legislation on the ground that some of its provisions "would largely destroy state responsibility and state initiative." He said that would be a major tragedy.

Raushenbush testified Friday before the House Ways and Means Committee. He said Wisconsin upgrades its unemployment compensation program every two years. The proposed extended coverage and increased taxable wage base are acceptable, he said, but not as federal requirements.

**GOP Eyes 'In-Depth Studies' Of 100 Democratic Districts**

WASHINGTON (AP) — House Republicans, sharpening their weapons for the 1966 congressional campaign, are preparing "in-depth studies" of the home districts of 100 Democrats they would like to defeat.

These will help plan strategy for what many Republicans regard a crucial political battle to start a comeback from the 1964 defeat. That not only denied Republicans the presidency but reduced their numbers in Congress to the lowest level since the days of Franklin D. Roosevelt's New Deal.

In planning wider use of polls, the Republicans are, in effect, taking a leaf from the book of applied politics used by recent successful Democratic candidates. Both President Johnson and the late President John F. Kennedy used polls extensively.

Rep. Bob Wilson of California, chairman of the GOP Congressional Committee, explained in an interview the GOP hopes to find all it can about each of the target districts — "what the basic issues are, what the people are thinking, how a candidate is running."

He figures this may require two surveys of each district.

To learn more about this modern political weapon, the Republicans already have conducted some shakedown cruises.

Wilson said they had had sample polls conducted in five districts. He wouldn't identify the districts but said they were in California, Iowa, New York, South Carolina and in a Midwestern state.

In some cases, Wilson said, the Republicans tried different

polling companies on the same district to compare their results, and "we were surprised how close their figures were."

Not all 100 Democratic target districts have been picked because of uncertainties arising from reapportionment in some states, Wilson said. But he hopes to get the operation in high gear by next spring.

**Fines Are Levied In Traffic Cases**

LISBON — An East Rochester man was fined a total of \$30 after pleading guilty to two traffic charges during Friday's session of Southwest Area County Court.

The defendant, Harry E. Elliott, 26, was fined \$20 on a speeding charge and \$10 on a charge of operating a motor vehicle without a valid operator's license by Judge J. L. MacDonald.

In another case, Edward Pasternick, 29, of Kensington was fined \$10 on a charge of operating a motor vehicle with registration plates issued to another vehicle.

Three persons forfeited appearance bonds totaling \$70 in separate cases.

Harry Duncan of Salem, failure to display valid PUCO tax decal, \$25; Richard A. Garvin, 30, of Sarver, Pa., operating a commercial motor vehicle without obtaining a PUCO license, \$25; and William M. Lick, 34, of Sunbury, failure to yield half of the highway to traffic, \$20.

**Chester Youth Hurt When Car Overtakes**

An 18-year-old Chester youth is in fairly good condition today at City Hospital after suffering a possible concussion in a one-car accident about 1:05 a. m. Friday morning on Route 30, near Hookstown.

Pennsylvania state police said Paul Nelson was traveling west on Route 30 when he lost control of his auto while negotiating a turn, hit a cement abutment and overturned.

Damage to the car was estimated at \$600.

**Thieves Grab Safe**

CINCINNATI (AP) — Two thieves escaped with a 1,015-pound safe, containing \$8,000 in cash and \$7,000 in checks, from the Procter & Gamble Company's Winton Hill Technical Center Friday, police said. An employee said he saw the men drive from the plant in a cream-colored auto.

**2 Women Picked For State Posts By Gov. Smith**

CHARLESTON (AP) — Gov. Hulett Smith announced today the appointment of two women to administrative positions in state government.

Speaking to the convention of the West Virginia Federation of Democratic Women, Smith said the appointments of Mrs. Sue Scott of Oak Hill and Mrs. Odessa Lewis of Beckley "will be a big step in attracting more women into state government."

Mrs. Scott was named assistant director of the Department of Personnel and Mrs. Lewis was appointed administrative assistant to the Public Service Commission.

The governor said one of Mrs. Scott's duties would be to seek qualified women to serve in important government posts.

"We have found that with very few exceptions, high-paying and important government positions are going to men because not even one woman applied for the job," he explained.

"As long as women fail to show an active interest in government work, it is going to be twice as difficult to appoint them to these posts."

**Salem Woman's Released From County Custody**

LISBON — A Salem woman was discharged from county custody Friday by Judge Raymond S. Buzzard in a Common Pleas Court action.

She had been arrested several weeks ago on a warrant from Taylor County, Texas.

The judge granted a writ of habeas corpus filed on behalf of Mrs. Joan Weese of 496 W. Pershing St., Salem, because arrest papers were not in order.

Texas authorities say she is wanted on a charge of removing mortgaged property, which include household items. Sheriff Russell J. Van Fossan apprehended the woman on a warrant from the sheriff at Abilene, Tex., who indicated he would file extradition proceedings.

Since her arrest, Mrs. Weese has been free on her own recognizance.

Judge Buzzard said he discharged her Friday on specific grounds that there is no warrant for her arrest signed by a creditable person in this state. He said such a warrant could be issued by the sheriff on the basis of the warrant Texas authorities sent by mail.

The judge said he did not mean to cast any reflection on the sheriff, since he has been following a procedure used for many years.

**Action On Meters Slated In Council**

Legislation authorizing the purchase of automatic meters for the proposed off-street lot on the former Hazel Laughlin property is scheduled to be considered by City Council at its meeting Monday at 8 p. m.

Council decided at its July 19 meeting to specify automatic rather than manual-type meters for the new lot, acting on a motion by Councilmen Floyd Murray and Donald Hancock.

When enabling legislation authorizing Safety Service Director Robert E. Vodrey to let a contract for razing of two homes, leveling the lot and purchase of meters was passed, Hancock supported the measure, but reserved the right to call a vote on an amendment, explaining the legislation did not specify the type of meters to be purchased.

Council also is scheduled to consider a resolution placing renewal of a 2-mill garbage levy for five years on the ballot at the Nov. 2 general election.

**Judge Weighs Verdict On Milk Permit Action**

LISBON — A ruling on a mandamus action filed by the Fairmont Foods Co. of Parkersburg, W. Va., against the East Liverpool Board of Health over the board's refusal to grant a milk permit to the firm is expected Monday or Tuesday.

Common Pleas Court Judge Raymond S. Buzzard heard closing arguments in the case Friday.

**Hills Won't Open Tomorrow In Debate On Sunday Sales**

Whether or not the new Hills Brothers department store at Calcutta will operate under a Sunday opening schedule in the future remained uncertain today following an announcement by the management that the store will be closed tomorrow.

The question has been raised by some as to whether Sunday operation would be legal under Ohio law.

A delegation of ministers and others attended a meeting of St. Clair Township trustees last Monday to urge action to curb the planned Sunday sales.

Some downtown merchants have conferred with County Prosecutor J. Warren Bettis and Sheriff Russell VanFossan at Lisbon relative to the legality of Sunday sales.

A Salem attorney has been retained by Hills.

Bettis said this morning the Ohio law permits the sale of "necessities" on Sunday, but added there has been much debate in the legislature and among state legal authorities on what is properly a necessity.

Arrests have been in the past year at various locations across the state at stores where appliances, clothing, shoes and other hard goods have been sold.

Bettis said he would prosecute any arrests made for violation of the Sunday sales, but said the responsibility for enforcement of the law rests with police authorities.

VanFossan said today there has been no violation of the Sunday sales law by Hills yet and indicated he is waiting to see how the situation develops.

**Membership Of 119 Listed In Annual Report Of Grange**

The membership now totals 119, the Brush Creek Grange of the Hammondsville - Salineville area reports in its Community Progress Program for the 1964-65 period.

Major projects listed include: Aid for 14 needy Grange members, donations to the Ohio Boys Village, Agriculture Hall of Fame, CARE, youth work and the Red Cross.

Flowers were purchased for four deceased members and get-well cards sent to 39 members.

Programs included a Halloween and Christmas party for children of the community, a Fourth of July festival and round and square dances, with proceeds used to pay for maintenance of the Hall.

Since Sept. 1, 1963, the report

included the following work: Re-roofing of the grange hall with asbestos shingles, replacing the front doors of the hall, putting a new top on the kitchen counter, installing new window shades and drapes and the obtaining of a piano.

Projects now under way include partitioning the basement, separating the furnace room from the new recreation room and repairing walls, windows and doors.

Each year an attendance contest is held to create interest in the grange and boost the membership. A turkey dinner is served by the losing team on Thanksgiving.

The hall is used by 4-H groups, by the church for suppers and other activities, for wedding showers and receptions and by other local clubs.

**Burglars Fail In Safe Job At City Store**

Burglars made an apparent unsuccessful attempt to break open a safe at the Star Furniture Co. at 616 Walnut St. some time overnight, police reported today.

Officers said they battered the safe in the office of the store owned by Nathan Weinbren of 3125 Gilson Ave., but apparently nothing was taken.

A 24-by-30-inch window on the south side of the building was smashed to gain entrance to the basement, and a door was pried to gain admission to the main floor and the office.

**Installation Set At Hookstown By Women's Group**

New officers of the Women's Association of the Mill Creek United Presbyterian Church of Hookstown, elected this week, will be installed at the October meeting.

The elections were held at a joint meeting of the Esther Circle, Circle B, Circle C and the Willa Ramsey Circle.

Mrs. Ethel McCoy read the scripture lesson, while Mrs. William Moore presented the dedicatory prayer of the summer medical offering.

Mrs. Millard Dawson, program chairman, gave a talk on the film, "Split Level Family," screened by Mrs. Chester Elliott.

Mrs. Moore presented the 1966 budget which was approved during the business session conducted by Mrs. Evert Macki, president.

Mrs. Lawrence Searight gave the secretary's report, while the treasurer's report was presented by Mrs. Gregg McElhane.

A fellowship hour followed in the church social room, with refreshments served by Mrs. James Anderson and her committee of Circle B.

**Legion Picnic Set**

LISBON — The American Legion picnic will be held Sunday at Valley Park on Route 7. All Legionnaires and their wives are invited to attend.

**Soviet's Space Station Sending Photos Of Moon**

MOSCOW (AP) — The Soviet space station Zond 3 has taken more pictures of the far side of the moon and is sending them back to earth, Tass announced today.

The photographs were taken by the space station when it was about 7,200 miles from the moon, Tass said.

The photographing occurred July 20 and lasted 1 hour and 8 minutes, Tass said, and transmission began July 29.

Soviet scientists first photographed the far side of the moon in 1959.

Zond 3 took pictures of a part that was not photographed then, Tass said.

**Two Are Injured As Car Hits Tree At East Palestine**

EAST PALESTINE — Two men were injured when their 1959 model sports coupe crashed into a tree along N. Market St. at 12:15 a. m. today.

The driver was Michael S. House, 21, of 33½ N. Elm St., who suffered a head injury. A passenger, Charles F. Dill Jr., 18, of Columbiana R. D. 1 was thrown from the vehicle and suffered a fractured left leg.

Police said House was headed north when he lost control of the vehicle at the top of N. Market St. hill. The car swerved left of center and hit the tree.

House was cited for speed in excess of road conditions.

**Patrol Reports 2 District Mishaps**

An East Palestine youth and a Lisbon area woman escaped injury in two district highway mishaps Friday, the Ohio Highway Patrol at Lisbon reported.

John Moon, 19, of 123 W. North Ave., East Palestine, lost control of his 1962 sedan on Route 172 near Guilford about 9 p. m. and the auto struck an embankment on a curve. He was charged with speeding.

A car operated by Dorothy Brooks, 41, of Lisbon R.D. 3 was struck in the rear by another when she halted for a stop sign on the Y. & O. Rd. at 10:45 p. m.

Her 1958 sedan received slight damage when hit by a 1959 sedan driven by Harry Fickes, 60, of Wooster. Fickes was charged with failure to stop in the assured clear distance.

**Man Given \$100 Fine In False Theft Report**

COLUMBIANA — Arthur Huk of Lisbon St., acting manager of the Firestone store, has been fined \$100, of which \$50 was suspended, and given a suspended sentence of six months in jail after he admitted to police he lied about being robbed.

Huk had reported that he was knocked unconscious by an intruder who then stole \$425 from the store at 12:15 a. m. last Sunday.

He now says he took the money himself. He made the confession to Police Chief William McGuckin and was taken before Judge Luther Dunbar at the Northeast Area Court in Salem on a charge of issuing a false report to police.

Huk has promised that he will return the money to the store, authorities said.

He had no previous record and was due for a promotion.

**Board Will Meet Monday Night**

Reports on the building program and progress of summer repair and maintenance will be heard by the Board by Education at its meeting Monday at 7:30 p. m.

Architect Robert F. Beatty will discuss the building program, while John R. Woomer, chairman of the building committee, will discuss the summer work.

Supt. Paul H. Blair will recommend the appointment of a superintendent of buildings and grounds to fill the vacancy created by the resignation of George Shuffert some time ago and other custodial assignments will be submitted for approval.

The board also will consider the appointments of Latin and biology teachers and resignations of some others.

French, mathematics and office practice teachers still are needed for the high school, along with instrumental music teachers for the junior high and elementary programs, Blair said.

**Former Boxer Sought In Death Of Man, 49**

CLEVELAND (AP) — Donald Messer, 49, was beaten to death Friday night and homicide detectives are seeking a 37-year-old former boxer.

Messer and a companion, James Coyne, 39, were beaten in a Euclid Avenue parking lot, Coyne told police. Coyne, who was found lying near the lot, was in satisfactory condition at Mount Sinai Hospital, where Messer died.

Police said the beating followed an argument between the assailant and the two men.

**Cancer Fatal At 45**

NEW YORK (AP) — Mrs. Thomas P. Whitney, 45, Russian-born composer and recording artist and wife of a former Associated Press correspondent in Moscow, died Friday of cancer. Born Yulya Alexandrovna Zapolskaya, she was widely known as an interpreter of Russian folk and popular music out-assailant and the two men.

He now says he took the money himself. He made the confession to Police Chief William McGuckin and was taken before Judge Luther Dunbar at the Northeast Area Court in Salem on a charge of issuing a false report to police.

**Insects AND YOUR HEALTH**

by Jim Fisher

**TOTAL COST?**

No one could ever accurately measure the total impact of insects and household pests on the world economy and man's total environment. Diseases, insects, nematodes, parasites, weeds and other pests affecting plants, animals, our natural resources and our lives have always been a very serious problem. Almost every insect is a potential carrier of disease germs and should be reckoned with as you would deal with anything that would threaten the health and general welfare of your family.

**TEMPORARY METHODS**

In areas where no professional pest control service is available, it is wise for homeowners to employ the best temporary methods available from the local store. Such chemicals are dangerous, however, and should always be treated as a lethal weapon around small children. When you have finished using the container... destroy it! Never leave a pesticide where it may be reached by inquisitive little hands. These temporary methods, to be really effective, must be applied thoroughly... daily in most cases. It is a constant, endless and somewhat expensive battle. In areas where a professional service is available, homeowners can enjoy more leisure time by leaving this chore up to the pest control operator. The cost is often less than do-it-yourself methods and always much more efficient. A professional PCO KNOWS the proper chemicals to use to safely and thoroughly eliminate your pest control problem.

**\$47 Billion Paid Out****Jobless Insurance Plan Launched 30 Years Ago**

WASHINGTON (AP) — Starting with a \$15 check to Neils B. Rudd of Madison, Wis., more than \$47 billion has been paid out to jobless Americans since the nation's unemployment insurance program was launched 30 years ago today.

Rudd didn't get his check for more than a year after President Franklin D. Roosevelt had signed the depression-born program into law Aug. 14, 1935. It took that long for the states to build up enough funds and iron out technicalities to start paying benefits.

Rudd, back at work at the Brock Engraving Co. when the check arrived, wasn't really in dire straits for the money by then.

But for millions of Americans since, the weekly unemployment check in hard times has been a lifesaver. Many economists say the checks served as a major bulwark to the economy in such times.

Secretary of Labor W. Willard Wirtz, seeking the first sweeping changes in the program since it began, says the economy probably would have collapsed without it.

"It has kept millions of men and women and their children from what would otherwise have been bankruptcy, personal as well as financial," Wirtz said in testifying before Congress on President Johnson's proposal to expand the program.

Programs included a Halloween and Christmas party for children of the community, a Fourth of July festival and a round and square dances, with proceeds used to pay for maintenance of the Hall.

Since Sept. 1, 1963, the report included the following work: Re-roofing of the grange hall with asbestos shingles, replacing the front doors of the hall, putting a new top on the kitchen counter, installing new window shades and drapes and the obtaining of a piano.

Projects now under way include partitioning the basement, separating the furnace room from the new recreation room and repairing walls, windows and doors.

Each year an attendance contest is held to create interest in the grange and boost the membership. A turkey dinner is served by the losing team on Thanksgiving.

The hall is used by 4-H groups, by the church for suppers and other activities, for wedding showers and receptions and by other local clubs.

**Burglars Fail In Safe Job At City Store**

Burglars made an apparent unsuccessful attempt to break open a safe at the Star Furniture Co. at 616 Walnut St. some time overnight, police reported today.

Officers said they battered the safe in the office of the store owned by Nathan Weinberg of 3125 Gilson Ave., but apparently nothing was taken.

A 24-by-30-inch window on the south side of the building was smashed to gain entrance to the basement, and a door was pried to gain admission to the main floor and the office.

**Installation Set At Hookstown By Women's Group**

New officers of the Women's Association of the Mill Creek United Presbyterian Church of Hookstown, elected this week, will be installed at the October meeting.

The elections were held at a joint meeting of the Esther Circle, Circle B, Circle C and the Willa Ramsey Circle.

Mrs. Ethel McCoy read the scripture lesson, while Mrs. William Moore presented the dedicatory prayer of the summer medical offering.

Mrs. Millard Dawson, program chairman, gave a talk on the film, "Split Level Family," screened by Mrs. Chester Elliott.

Mrs. Moore presented the 1966 budget which was approved during the business session conducted by Mrs. Evert Macki, president.

Mrs. Lawrence Searight gave the secretary's report, while the treasurer's report was presented by Mrs. Gregg McElhaney.

A fellowship hour followed in the church social room, with refreshments served by Mrs. James Anderson and her committee of Circle B.

**Legion Picnic Set**

LISBON — The American Legion picnic will be held Sunday at Valley Park on Route 7. All Legionnaires and their wives are invited to attend.

**Soviet's Space Station Sending Photos Of Moon**

MOSCOW (AP) — The Soviet space station Zond 3 has taken more pictures of the far side of the moon and is sending them back to earth, Tass announced today.

The photographs were taken by the space station when it was about 7,200 miles from the moon, Tass said.

The photographing occurred July 20 and lasted 1 hour and 8 minutes, Tass said, and transmission began July 29.

Soviet scientists first photographed the far side of the moon in 1959.

Zond 3 took pictures of a part that was not photographed then, Tass said.

**Two Are Injured As Car Hits Tree At East Palestine**

EAST PALESTINE — Two men were injured when their 1959 model sports coupe crashed into a tree along N. Market St. at 12:15 a. m. today.

The driver was Michael S. House, 21, of 33 1/2 N. Elm St., who suffered a head injury. A passenger, Charles F. Dill Jr., 18, of Columbiana R. D. 1 was thrown from the vehicle and suffered a fractured left leg.

Police said House was headed north when he lost control of the vehicle at the top of N. Market St. hill. The car swerved left of center and hit the tree.

House was cited for speed in excess of road conditions.

**Patrol Reports 2 District Mishaps**

An East Palestine youth and a Lisbon area woman escaped injury in two district highway mishaps Friday, the Ohio Highway Patrol at Lisbon reported.

John Moon, 19, of 123 W. North Ave., East Palestine, lost control of his 1962 sedan on Route 172 near Guilford about 9 p.m. and the auto struck an embankment on a curve. He was charged with speeding.

A car operated by Dorothy Brooks, 41, of Lisbon R.D. 3 was struck in the rear by another when she halted for a stop sign on the Y. & O. Rd. at 10:45 p.m.

Her 1958 sedan received slight damage when hit by a 1959 sedan driven by Harry Fickes, 60, of Wooster. Fickes was charged with failure to stop in the assured clear distance.

**Man Given \$100 Fine In False Theft Report**

COLUMBIANA — Arthur Huk of Lisbon St., acting manager of the Firestone store, has been fined \$100, of which \$50 was suspended, and given a suspended sentence of six months in jail after he admitted to police he lied about being robbed.

Huk had reported that he was knocked unconscious by an intruder who then stole \$425 from the store at 12:15 a. m. last Sunday.

He now says he took the money himself. He made the confession to Police Chief William McGuckin and was taken before Judge Luther Dunbar at the Northeast Area Court in Salem on a charge of issuing a false report to police.

Huk has promised that he will return the money to the store, authorities said.

He had no previous record and was due for a promotion.

**35 Still On Strike**

CINCINNATI (AP) — About 35 members of Teamsters Union Local 100 were all that remained on strike today in the Cincinnati area. Another 83 accepted a contract Friday with Richter Concrete Co.

**Board Will Meet Monday Night**

Reports on the building program and progress of summer repair and maintenance will be heard by the Board by Education at its meeting Monday at 7:30 p.m.

Architect Robert F. Beatty will discuss the building program, while John R. Woerner, chairman of the building committee, will discuss the summer work.

Supt. Paul H. Blair will recommend the appointment of a superintendent of buildings and grounds to fill the vacancy created by the resignation of George Shuffert some time ago and other custodial assignments will be submitted for approval.

The board also will consider the appointments of Latin and biology teachers and resignations of some others.

French, mathematics and office practice teachers still are needed for the high school, along with instrumental music teachers for the junior high and elementary programs, Blair said.

**Former Boxer Sought In Death Of Man, 49**

CLEVELAND (AP) — Donald Messer, 49, was beaten to death Friday night and homicide detectives are seeking a 37-year-old former boxer.

Messer and a companion, James Coyne, 39, were beaten in a Euclid Avenue parking lot, Coyne told police. Coyne, who was found lying near the lot, was in satisfactory condition at Mount Sinai Hospital, where Messer died.

Police said the beating followed an argument between the assailant and the two men.

**Cancer Fatal At 45**

NEW YORK (AP) — Mrs. Thomas P. Whitney, 45, Russian-born composer and recording artist and wife of a former Associated Press correspondent in Moscow, died Friday of cancer. ## 'Hit-Skip' Cases Mark Traffic Mishaps Here

An East End man identified as the driver of an auto involved in a hit-skip accident Friday night was located this morning by police, who also established ownership of another car involved in a hit-run sideswiping early this morning at the approach to the Chester Bridge.

Three other autos were damaged, two extensively, in a crash last night at Dresden Ave. and Webber Way.

Robert R. Cochran of 503 Mulberry St. was identified this morning as the driver of the auto which struck a car operated by Sue Allison Devon, 31, of 1822 Lisbon St., shortly after 8 p.m. on Mulberry St.

Mrs. Devon told officers she was driving north on Mulberry when a southbound auto hit the left side and front of her compact, but the driver continued without stopping. She furnished officers with a license number of the auto.

A 1960 auto involved in another mishap shortly before 3 this morning on E. 3rd St. near the bridge is owned by Elizabeth Votaw of Lisbon R.D. 4, officers reported.

The driver of the auto, which sideswiped the car of Francis E. Duke, 24, of Chester R.D. 1, was not identified.

Duke told officers he just came off the bridge when he

saw the unidentified driver round the curve on his side of the street. The Chester man said he pulled to the right as far as possible and applied his brakes, but the other car sideswiped his 1961 sedan, damaging the left side and both doors.

The other motorist stopped and got out, but then returned to his car and drove away, police were told by Duke, who provided a license number and description of the auto.

Dave Adkins of 1 Thompson Pl. was listed by police as a witness.

The three-car mishap at 8:24 p.m. yesterday at Dresden Ave. and Webber Way involved autos operated by Clyde E. Davis, 25, of Samuel St., Robert C. Humphrey, 18, of 1831 Anderson Blvd., and Victor E. Hauenstein, 21, of Negley, police said.

Davis told police he was headed north when Humphrey cut in front of him. He said he applied his brakes and was hit in the rear by the Hauenstein auto. Hauenstein agreed that he was unable to avoid Davis after the other driver halted suddenly.

The teen-ager told officers he didn't see Davis when he started to turn into a service station.

Postmaster Samuel W. Brown was listed as a witness to the accident.

## Six Advance In Tractors' Competition

LISBON — The youth who wins in the tractor competition at the Columbiana County Fair Aug. 25 will go on to compete at the Ohio State Fair at Columbus.

The six youths who will be competing at the county fair are Dean Farmer, Salem R. D. 3; Bob Crosser, Lisbon R. D. 4; Denny Weaver, Lisbon R. D. 4; Phil and Larry Hippley, brothers from Lisbon R. D. 4, and Bill Rowley, Lisbon R. D. 1.

They are the six winners of the semi-final 4-H tractor contest held Friday at Gause Farm Equipment at Guilford Lake.

The winner at the county fair contest will have part of his trip to Columbus sponsored by Charles Gause of the Gause Farm Equipment Co.

Ray Dixon of Lisbon was judge for the semi-final event.

## Horse-Pulling, Other Events To Mark Fair's End

The annual horse-pulling contest and stage entertainment will be featured during the closing of the Fairview Grange fair in Ohioville tonight at the grange grounds.

Light and heavy draft horses will compete at 7 p.m. in the show ring.

Other features will include a show by Rita Spanik's Dance Studio and a combo, "The Tribesmen," from New Castle. "The Lonely Ones," a rock and roll group, will entertain in the late afternoon.

Members of the grange will meet Tuesday night in the grange hall, with Robert Dawson, master, presiding.

## Food Donations Asked For Salineville Booth

SALINEVILLE — Fred Wilson, president of the Salineville fire department, has requested donations for a lunch stand at the annual firemen's celebration to be registered with Mrs. Viola McNichol of Market St.

The celebration will be held at the athletic field Monday through Saturday, with the Heck Museum Co. furnishing rides. Proceeds will be used for fire department equipment.

## Riots

(Continued from Page 1)

cars piled high and stacked the stuff on sidewalks. Some piles were five and six feet high. As officers worked, snipers fired from rooftops and speeding autos. Police returned the fire.

Two firemen were shot as they battled one of more than 100 major fires set by mobs of looters.

A hit-run car hurtled into a National Guard skirmish line, injuring one. Officers fired on the car and two suspects were arrested. One was wounded.

More than 2,000 guardsmen moved in on hot spots of violence, and 3,000 more were in reserve in neighboring counties. Within hours guard officers said "the operation is going very well."

The troops were mobilized Friday after nearly 1,000 law enforcement officers, overwhelmingly outnumbered by rioters running wild over several square miles said they couldn't handle the situation.

As guardsmen marched in, the South Side was a scene of incredible confusion: Scores of buildings looted and burned, millions of dollars in merchandise stolen or destroyed, gun battles and fist fights between officers and rioters, cars overturned and burned.

The slain deputy, Ronald E. Ludlow, 27, was shot in the stomach as he and a partner tried to drive looters from a blazing store. He died in the emergency room of St. Francis Hospital in Lynwood.

Identity of the Negro victims was not learned immediately.

Police and civilian injuries rose past the 200 mark. More than 300 rioters were arrested and police made plans to reopen a long-closed jail.

The National Guard was called in after repeated requests by Mayor Samuel Yorty and Police Chief William H. Parker, who said their force of nearly 1,000 men could no longer cope with the violence.

By midafternoon Friday, rioters began overrunning barricades. Looting and fires spread from a few blocks to several square miles.

Lt. Gov. Glenn M. Anderson called out the guard shortly after flying here from the state

capital at Sacramento. He acted in the absence of Gov. Edmund G. Brown, in Greece on a European vacation.

Brown sent word that he was flying home and expected to reach Los Angeles late tonight. Lt. Gen. Roderick Hill, in charge of the guards, told newsmen: "The operation is going very well."

He said each trooper was given ammunition as he moved forward into a troubled area but had orders to fire "only if fired upon."

Mayor Yorty said it would be several days before the 2,000

guards and nearly 1,000 police could bring the area under control. He said a force of 15,000 was needed.

"Control will not come until we get the criminal element in jail," he said. "These people are not representative of the Negroes of Los Angeles. They are criminals."

## 'Hit-Skip' Cases Mark Traffic Mishaps Here

An East End man identified as the driver of an auto involved in a hit-skip accident Friday night was located this morning by police, who also established ownership of another car involved in a hit-run sideswiping early this morning at the approach to the Chester Bridge.

Three other autos were damaged, two extensively, in a crash last night at Dresden Ave. and Webber Way.

Robert R. Cochran of 503 Mulberry St. was identified this morning as the driver of the auto which struck a car operated by Sue Allison Devon, 31, of 1822 Lisbon St., shortly after 8 p.m. on Mulberry St.

Mrs. Devon told officers she was driving north on Mulberry when a southbound auto hit the left side and front of her compact, but the driver continued without stopping. She furnished officers with a license number of the auto.

A 1960 auto involved in another mishap shortly before 3 this morning on E. 3rd St. near the bridge is owned by Elizabeth Votaw of Lisbon R.D. 4, officers reported.

The driver of the auto, which sideswiped the car of Francis E. Duke, 24, of Chester R.D. 1, was not identified.

Duke told officers he just came off the bridge when he

saw the unidentified driver round the curve on his side of the street. The Chester man said he pulled to the right as far as possible and applied his brakes, but the other car sideswiped his 1961 sedan, damaging the left side and both doors.

The other motorist stopped and got out, but then returned to his car and drove away, police were told by Duke, who provided a license number and description of the auto.

Dave Adkins of 1 Thompson Pl. was listed by police as a witness.

The three-car mishap at 8:24 p.m. yesterday at Dresden Ave. and Webber Way involved autos operated by Clyde E. Davis, 25, of Samuel St., Robert C. Humphrey, 18, of 1831 Anderson Blvd., and Victor E. Hauenstein, 21, of Negley, police said.

Davis told police he was headed north when Humphrey cut in front of him. He said he applied his brakes and was hit in the rear by the Hauenstein auto.

Hauenstein agreed that he was unable to avoid Davis after the other driver halted suddenly.

The teen-ager told officers he didn't see Davis when he started to turn into a service station.

Postmaster Samuel W. Brown was listed as a witness to the accident.

## Riots

(Continued from Page 1)

cars piled high and stacked the stuff on sidewalks. Some piles were five and six feet high. As officers worked, snipers fired from rooftops and speeding autos. Police returned the fire.

Two firemen were shot as they battled one of more than 100 major fires set by mobs of looters.

A hit-run car hurtled into a National Guard skirmish line, injuring one. Officers fired on the car and two suspects were arrested. One was wounded.

More than 2,000 guardsmen moved in on hot spots of violence, and 3,000 more were in reserve in neighboring counties.

Within hours guard officers said "the operation is going very well."

The troops were mobilized Friday after nearly 1,000 law enforcement officers, overwhelmingly outnumbered by rioters running wild over several square miles, said they couldn't handle the situation.

As guardsmen marched in, the South Side was a scene of incredible confusion: Scores of buildings looted and burned, millions of dollars in merchandise stolen or destroyed, gun battles and fist fights between officers and rioters, cars overturned and burned.

The slain deputy, Ronald E. Ludlow, 27, was shot in the stomach as he and a partner tried to drive looters from a blazing store. He died in the emergency room of St. Francis Hospital in Lynwood.

Identity of the Negro victims was not learned immediately. Police and civilian injuries rose past the 200 mark. More than 300 rioters were arrested and police made plans to reopen a long-closed jail.

The National Guard was called in after repeated requests by Mayor Samuel Yorty and Police Chief William H. Parker, who said their force of nearly 1,000 men could no longer cope with the violence.

By midafternoon Friday, rioters began overrunning barricades. Looting and fires spread from a few blocks to several square miles.

Lt. Gov. Glenn M. Anderson called out the guard shortly after flying here from the state

capital at Sacramento. He acted in the absence of Gov. Edmund G. Brown, in Greece on a European vacation.

Brown sent word that he was flying home and expected to reach Los Angeles late tonight. Lt. Gen. Roderick Hill, in charge of the guards, told newsmen: "The operation is going very well."

He said each trooper was given ammunition as he moved forward into a troubled area but had orders to fire "only if fired upon."

Mayor Yorty said it would be several days before the 2,000

guards and nearly 1,000 police could bring the area under control. He said a force of 15,000 was needed.

"Control will not come until we get the criminal element in jail," he said. "These people are not representative of the Negroes of Los Angeles. They are criminals."

## 20 Years After The Surrender

Just 20 years ago, the pent-up emotions of a nation long at war erupted across the land from East to West and North to South. It was 7 p.m., Aug. 14. President Harry S. Truman began a broadcast to the nation. It was brief. The Japanese had surrendered. It was the end of World War II.

In New York City, two million people jammed into Times Square. They sang. They danced. They drank. Servicemen and civilians hugged and kissed every girl within reaching distance.

**THE SCENE** was the same in every city, hamlet and cross-roads town across the U.S. In San Francisco, two blondes even bathed in the altogether in one of the city's fountains.

Places of worship too were filled as church-goers offered prayers of thanks that the war was over.

From many windows, parents, widows, and orphans watched the celebrations but there was a sadness in their hearts for the loss of loved ones.

The cost to the families of American servicemen was: 291,557 dead and 670,846 wounded of the 16.35 millions who had donned the U.S. uniform after the Japanese struck at Pearl Harbor.

Japan had paid for its "Day of Infamy." The United States had been avenged but in the 20 years since peace has not come to the world.

The United States finds itself at war again in everything but declaration. The fighting in Viet Nam—like the fighting in Korea only five years after World War II ended—stems more or less directly from the untidy, unfinished World War II peacemaking.

**IT TOOK** a direct attack on Pearl Harbor to push the U.S. into war against

Japan. When Japan surrendered 20 years ago, the foremost thought of President Truman, as he tells it in his memoirs, was that now "maybe the teachings of the Sermon on the Mount could be put in effect."

The two decades that have followed, full of din and bloodshed, have given little life to Mr. Truman's aspirations.

But neither have they spawned a World War III.

## The Women's Side

Agriculture in the tri-state district is not, and never has been, strictly a man's world.

Women have provided the home and family living efficiency which elevated farming from the hut and plowshare level.

And many have won callouses on their hands or suffered sun-burned noses and aching muscles by assuming henhouse, barn or field duties which make them toilers of the soil no less than their fathers, husbands or sons.

Women for years have held a place in the farm market operations, the Grange and other agricultural activities.

Now the distaff side is represented on the Columbiana County Agricultural Stabilization and Conservation Committee for the first time.

Mrs. Martha Kandel of Knox Township, who operates a farm with her two sons and a daughter, has been named a first alternate to the ASCS.

Mrs. Kandel represents another example of capable women meeting the challenge of responsibility in today's world of opportunity.

## The Decision Is Ours

President Johnson has made a valiant effort to clear up a point of confusion about our position in Viet Nam by saying the U.S. is fighting there only by request and will not remain if asked to leave.

This added weight to Ambassador Henry Cabot Lodge's denials of a statement attributed to him to the effect that the U.S. is in Viet Nam to stay whether the Saigon government likes it or not.

**THAT'S FINE.** Now that the President has set the record straight, only one further point needs clarification: Who is the government to whom we have committed our support?

We recall a statement last June by Senate Majority Leader Mike Mansfield that touched on the same question. Expressing general dissatisfaction with the government of Nguyen Cao Ky, the latest in a series of South Vietnamese premiers, Mansfield said:

"It is a good time to note that the commitment we made years ago in Viet Nam was to the people of Viet Nam and it was made through the government of President Ngo Dinh Diem, who was the only one of this parade of governments in Saigon which received any formal endorsement from the people of Viet Nam in elections."

Since Diem's ouster and subsequent death in November 1963, no less than six premiers have headed the South Viet-

namese government. None of them was elected; none remained in power for longer than a few months.

**THERE IS NOTHING** to indicate that the regime of Premier Ky has widespread support among the people of South Viet Nam. There was nothing to indicate popular support for the changing-chair regimes preceding his.

This country has had a hand, at least indirectly, in deciding who heads the Saigon government. The decision as to how long we remain in Viet Nam is not likely to be dictated by a puppet premier.

We are not attempting here to argue for or against continuance of the U.S. role in Viet Nam. We merely point out that the decision rests with the United States, not the Saigon government.

## Proper Penalty

The U. S. Senate should act quickly and favorably on a House-passed bill to crack down on the empty-heads who have been burning their draft cards in open defiance of America's involvement in Vietnam.

The measure, approved by the Senate Armed Services Committee, provides up to 5 years in prison and a \$10,000 fine for anyone mutilating draft cards.

We'd suggest throwing the card-burners into the thick of battle instead of jail except these odd-ball demonstrators don't deserve to wear the uniform of a U. S. fighting man.

By Martin Miller

out the freezer but we took all the food out so you wouldn't have to contend with that mess.

In order to save some of the better steaks we ate them and you are to be complimented on your epicurean tastes. Don't remember when we've had anything so good.

The washing machine and dryer probably will be okay as soon as they dry out in a week or so. You might have to be careful the first few times they are used to make sure the motors don't burn up but aside from that you can rest easy.

We did the best we could for those fine tools you have in your basement workshop. They are rusty right now but a little elbow grease and emery paper should make them look almost like new.

So keep right on relaxing and enjoying your vacation and don't worry about a thing back here. Everything possible has been done to make emergency repairs.

Naturally, you are concerned about what is happening back on the home front and the above information should convince you that everything is fine, considering how much worse the storm might have been. Have fun.

Faithfully yours,  
MAX

## This 'n That

The "steam" we see gushing forth from the spout of a boiling teakettle is really not steam at all—it is water vapor. The real steam is in the space between the end of the spout and the cloud of the vapor which forms when the cool air re-condenses the steam into vapor.

Mining is one of the oldest industries engaged in by man. Some 8,000 workers, for instance, were once employed in the sixth millennium B.C. in copper and turquoise mines in the Sinai Peninsula.

The university with the largest enrollment in the world is Calcutta University, Calcutta, India. Latest figures have 122,135 students in this institution.

## Letter From Max

Dear Truman Twill:

Wherever you are.

Some other people are liable to be writing to you to tell you about the damage the storm did to your house while you are away on vacation and so I thought I would write to reassure you that the old place is not as busted up as they might say.

I dropped around by the manse after the storm and had a hard time getting up your long driveway because a tree had been blown down across it but we finally got that cleared away.

The dogs didn't seem to be there at first but they finally came out of a tunnel they had dug in the putnia patch. The flower garden can be fixed up with a day or two of work despite what the dogs have done to it. You can hardly see any damage there from a distance of 50 or 100 feet.

And if anyone writes to tell you about the ceiling in the living room, that is not so bad either.

The spot the rain water made on the ceiling wallpaper is not as big as your hand, really. It is right in the middle of the ceiling near the light but it can be disguised easily.

Of course upstairs it is a little worse because more water got in there. You might have to do the ceiling over in the master bedroom.

Don't get all fretful about where the big limb from a tree knocked a hole in the roof because we took the limb out and covered the hole so it will be weather-proof until you return.

It is not true that every window in the house was broken, only a few were broken and we have them boarded over for you.

Any reports you get about what the flood did in the basement probably will be exaggerated, too.

The furnace man came while we were there and he says there is no immediate danger of an explosion. He said he would be ready to give you a price on fixing the furnace as soon as you get back from your fun in the mountains and are all rested up.

The high water in the basement shorted

# Trade With Reds Jeopardizes Lives

By DAVID LAWRENCE  
Which is more important — to make money for oneself in trading with an enemy or to help save human lives? Everybody would say at once that it is obviously better to avert bloodshed and end any war that's going on. But when this is applied in practice, it turns out that many individuals in various countries, hitherto allied with us, have a greater

passion for dollars or pounds or francs or marks or pesos.

There wouldn't be a war in Viet Nam today and American boys wouldn't be fighting and dying in a far off land if the nations of the world whom the United States has befriended and to whom it continues year after year to send billions of dollars of aid took a stand in support of the American position of Viet Nam.

There would be a different story to tell if trade with Red China were cut off by the free world, and if the Soviets saw that the same thing would happen to them should they keep on siding with North Viet Nam

by building missile sites there and sending weapons to be used to kill American soldiers and airmen. The Russian people, if they knew the facts, would not go along with the Red Chinese.

Perhaps the Johnson administration has failed to be realistic about the situation.

**THE PRESIDENT** has said that he has ample authority to send American armed forces to Southeast Asia under the resolution passed by both houses of Congress on Aug. 10, 1964. While this is true, Congress has not formally declared "a state of war," which is recognized

in international law as requiring all nations to refrain from sending contraband goods to the belligerents under penalty of seizure or confiscation of shipments of such commodities.

Red China is in every sense a co-belligerent with North Viet Nam. The Viet Cong couldn't last a month if forces and weapons were not supplied directly or indirectly by the Communist regime in Peking.

But what is the news that the American people read in the headlines last week? Canada has announced that it has just completed a deal to sell \$450 million worth of wheat to the Soviet government. This il-

lustrates the importance placed on international trade and the dependence of the Communist bloc on trade with the free world.

It has been argued that more trade will produce better relations with the Communist regimes, and a new scheme now is being pushed here to sell vast quantities of U.S. wheat to Communist countries, especially in Eastern Europe.

**MUCH OF THE** American grain which would be shipped to the Communists in Eastern Europe or elsewhere has been bought and paid for by United States taxpayers through the farm-subsidy program. The Chicago Tribune says editorially:

"If the sale is approved, we will be selling wheat to Communists at 75 cents a bushel less than American flour millers have to pay for it. And if Congress authorizes the administration's new wheat program, the Communists next year will be able to buy our wheat at \$1.25 a bushel less than it is sold for food in this country. In other words, the administration proposes to sell our wheat to Communists at the low world price while at the same time it is asking Congress to boost the price of domestic wheat for food to double the world price—which means American consumers would have to pay higher prices for wheat foods—for example, two cents a loaf more for bread.

"Moreover, we are beginning to hear that inasmuch as our grain sales to Russia simply free Russian grain for export to Red China and Cuba, we might as well get in on this trade directly. Not mentioned is the argument that if we did not sell grain to Russia, it would have less grain to supply Red China and Cuba. And if we sell to Red China, why not ship food directly to North Viet Nam, even though it is directing a war against us and killing Americans in South Viet Nam?"

"Although grain is not usually classified as 'strategic material' in the sense of arms and ammunition, it certainly becomes strategic when our enemies are hungry and can't feed themselves."

**SO IT COMES** back to the same old question: Which is more important—to make money for oneself or to help save human lives, especially American lives?

The war the United States is fighting in Viet Nam has a worthy purpose and winning it can do a great deal to prevent further acts of aggression and to preserve world peace. But if, as in the 1930s, private greed supersedes the interests of the people as a whole, the world may again see a global conflict. For it was the failure of the embargo on oil against Mussolini in 1935 and the flagrant indifference of the nations of Europe to the plea of President Roosevelt in 1937 for a "quarantine" or economic embargo against Hitler that brought on the very conditions which made World War II inevitable.

'Don't Fret About It Being Too Crowded. With Your Father's Disposition, There'll Be Plenty Of Room In Fifteen Minutes'

## Red Terrorists Scarce In Venezuela

By VICTOR RIESEL  
CARACAS, VENEZUELA  
A few hours after I left Raul Leoni, president of this country, some friends and I went into the night to hunt terrorists.

There was plenty of noise, many sirens, special agents of Digepol, the national police, regular road blocks, cops with machine guns and automatic rifles and lots of young men in flashy 1965 cars.

But we found no terrorists—though uniformed policemen have been killed regularly by machine gun fire spitting from fast sports cars and pipelines have been bombed.

Fact is that terrorists are hard to find, because there are so few of them. At most there are but 600 to 800 in disciplined underground cadres, though there are plenty of young people, what with more than 50 per cent of the population under 20 years of age.

**THE NIGHTRIDERS**, who receive their money from paymasters in the Italian Communist party, get no place in this country, because its people its unions in the city and countryside and its genial, fast talking President Leoni sincerely believe in free enterprise.

When the President and I talked in his private office inside the Miraflores Palace, he made a point of emphasizing the sense of responsibility of the nation's labor movement, the Confederation of Workers of Venezuela (CTV).

President Leoni said that he can vouch for this movement because he has been working closely with it for years—ever since he and its leaders were in exile battling the dictator.

The movement did not seek

nationalization of industry, nor did it want to compete with private enterprise.

There is virtually no Communist influence inside labor here, though a small fraction has enough standing in the world Communist picture to get one of its members invited to North Viet Nam. But he is not in the movement which includes 95 per cent of the city and farm workers.

**THIS, THEREFORE**, is the first still underdeveloped country among those on which the Havana, Moscow and Peiping leaders have concentrated which has given the invaders a brush-off, just to use a good old-fashioned word.

When the terrorists tried to cut themselves some territory far in the hinterland, the peasants refused to be blackmailed or muscled into feeding or hiding them. Why? Because the farm workers now are in the mainstream of the country's economic life—this means that they and their womenfolk and youngsters do far more than eat regularly. They have homes of their own and land of their own.

Under President Leoni and his predecessor, Romulo Betancourt, this country has distributed 1.46 million hectares to more than 80,000 families. This acreage came from either public lands or owners of private property who were duly and properly repaid.

**SOON ANOTHER** 150,000 peasant families will be re-located on their own land. When this is accomplished, Venezuela will be the first nation of its kind to "come to a conclusion of its agrarian problems," President Leoni has said.

"But land by itself," he added, "will not solve the problem of the peasants. . . . Therefore land reform is complemented by financial and technical assistance and the construction of permanent irrigation systems

and a system that will also include housing, education, health, feeder roads, marketing systems and guarantee minimum prices for agricultural produce."

Just the other day I sat with union leaders in their central headquarters here and heard them talk proudly of the success of their followers in the campesinos' unions. Eggs and chickens are not important to you folks back home. But here where the grim joke was that when a worker ate chicken either he or the chicken was sick, the union members are justifiably proud when the report that the country now is self-sufficient in poultry and eggs.

## A Fair Exchange?

By Will Grimsley

**WARSAW, Poland (AP)**—An American tourist wandering 10 feet from the door of his Warsaw hotel is accosted by a sinister individual, who whispers: "Like to exchange, please Like to exchange?"

He wants to exchange zlotys for American dollars.

There is nothing unusual about this—it is practiced in some of the best capitals of the world, including Moscow—but in Poland, the game is more interesting.

The zloty is the Polish unit of currency—like the French franc, Russian ruble or British pound—although it is much more flexible.

How flexible nobody really knows.

In the official statistics, the rate is four zlotys to the dollar. The tourist rate is 24-1. This year, the tourist has been given a bonus of 16 zlotys, making the rate 40-1.

But that is just chicken-feed. Any Pole can go to a national savings bank and exchange dollars at the rate of 72-1.

This is a sort of gray market. It's a method for the government to get precious dollars.

The 72-1 rate is not the ultimate, however.

The terrorists can't live off the countryside, so they have returned to the cities with their bombs and machine guns. They are strewing some bullets around. But they can't really damage the republic. They believe they can frighten off the foreign investor and create chaos and disorder. Well, they can't. Not in a country where labor, industry, the peasant and the government stand shoulder to shoulder.

EDITOR OF THE REVIEW:

Why do people have such short memories? Why do they take for granted what they have and feel inclined to deny it to any one else?

Has the union come to mean so little to all those people who rush to Waterford Park with the idea of making an "easy buck" that they have forgot what the union does for them?

Reading any history book one knows that the union has established higher wages, a shorter working day and better working conditions. And because these men have had the courage to ask for this union representation, and because the parimutuel workers had the courage to recognize their picket line, as any union worker should, they have lost their jobs.

Waterford Park officials are

now going to butter up the public, making it seem as if they are the hero, by throwing a free party at the track. Actually they are going to make the public look like a bunch of fools, by in turn making the pickets look like fools.

If it were you standing out there how would you feel when you saw your fellow man ignoring you, simply for the sake of money, or so it appears.

Have you stopped to realize that there are now women over there taking the place of men, who had a family to support?

Remember the golden rule, "Do unto others as you would have them do unto you."

## 20 Years After The Surrender

Just 20 years ago, the pent-up emotions of a nation long at war erupted across the land from East to West and North to South. It was 7 p.m., Aug. 14, President Harry S. Truman began a broadcast to the nation. It was brief. The Japanese had surrendered. It was the end of World War II.

In New York City, two million people jammed into Times Square. They sang. They danced. They drank. Servicemen and civilians hugged and kissed every girl within reaching distance.

**THE SCENE** was the same in every city, hamlet and cross-roads town across the U.S. In San Francisco, two blondes even bathed in the altogether in one of the city's fountains.

Places of worship too were filled as church-goers offered prayers of thanks that the war was over.

From many windows, parents, widows, and orphans watched the celebrations but there was a sadness in their hearts for the loss of loved ones.

The cost to the families of American servicemen was: 291,557 dead and 670,846 wounded of the 16.35 millions who had donned the U.S. uniform after the Japanese struck at Pearl Harbor.

Japan had paid for its "Day of Infamy." The United States had been avenged but in the 20 years since peace has not come to the world.

The United States finds itself at war again in everything but declaration. The fighting in Viet Nam—like the fighting in Korea only five years after World War II ended—stems more or less directly from the untidy, unfinished World War II peacemaking.

**IT TOOK** a direct attack on Pearl Harbor to push the U.S. into war against

Japan. When Japan surrendered 20 years ago, the foremost thought of President Truman, as he tells it in his memoirs, was that now "maybe the teachings of the Sermon on the Mount could be put in effect."

The two decades that have followed, full of din and bloodshed, have given little life to Mr. Truman's aspirations.

But neither have they spawned a World War III.

## The Women's Side

Agriculture in the tri-state district is not, and never has been, strictly a man's world.

Women have provided the home and family living efficiency which elevated farming from the hut and plowshare level.

And many have won callouses on their hands or suffered sun-burned noses and aching muscles by assuming henhouse, barn or field duties which make them toilers of the soil no less than their fathers, husbands or sons.

Women for years have held a place in the farm market operations, the Grange and other agricultural activities.

Now the distaff side is represented on the Columbiana County Agricultural Stabilization and Conservation Committee for the first time.

Mrs. Martha Kandel of Knox Township, who operates a farm with her two sons and a daughter, has been named a first alternate to the ASCS.

Mrs. Kandel represents another example of capable women meeting the challenge of responsibility in today's world of opportunity.

## The Decision Is Ours

President Johnson has made a valiant effort to clear up a point of confusion about our position in Viet Nam by saying the U.S. is fighting there only by request and will not remain if asked to leave.

This added weight to Ambassador Henry Cabot Lodge's denials of a statement attributed to him to the effect that the U.S. is in Viet Nam to stay whether the Saigon government likes it or not.

**THAT'S FINE.** Now that the President has set the record straight, only one further point needs clarification: Who is the government to whom we have committed our support?

We recall a statement last June by Senate Majority Leader Mike Mansfield that touched on the same question. Expressing general dissatisfaction with the government of Nguyen Cao Ky, the latest in a series of South Vietnamese premiers, Mansfield said:

"It is a good time to note that the commitment we made years ago in Viet Nam was to the people of Viet Nam and it was made through the government of President Ngo Dinh Diem, who was the only one of this parade of governments in Saigon which received any formal endorsement from the people of Viet Nam in elections."

Since Diem's ouster and subsequent death in November 1963, no less than six premiers have headed the South Viet-

namese government. None of them was elected; none remained in power for longer than a few months.

**THERE IS NOTHING** to indicate that the regime of Premier Ky has widespread support among the people of South Viet Nam. There was nothing to indicate popular support for the changing-chair regimes preceding his.

This country has had a hand, at least indirectly, in deciding who heads the Saigon government. The decision as to how long we remain in Viet Nam is not likely to be dictated by a puppet premier.

We are not attempting here to argue for or against continuance of the U.S. role in Viet Nam. We merely point out that the decision rests with the United States, not the Saigon government.

## Proper Penalty

The U. S. Senate should act quickly and favorably on a House-passed bill to crack down on the empty-heads who have been burning their draft cards in open defiance of America's involvement in Vietnam.

The measure, approved by the Senate Armed Services Committee, provides up to 5 years in prison and a \$10,000 fine for anyone mutilating draft cards.

We'd suggest throwing the card-burners into the thick of battle instead of jail except these odd-ball demonstrators don't deserve to wear the uniform of a U. S. fighting man.

## Letter From Max

Dear Truman Twill:

Wherever you are.

Some other people are liable to be writing to you to tell you about the damage the storm did to your house while you are away on vacation and so I thought I would write to reassure you that the old place is not as busted up as they might say.

I dropped around by the manse after the storm and had a hard time getting up your long driveway because a tree had been blown down across it but we finally got that cleared away.

The dogs didn't seem to be there at first but they finally came out of a tunnel they had dug in the putenia patch. The flower garden can be fixed up with a day or two of work despite what the dogs have done to it. You can hardly see any damage there from a distance of 50 or 100 feet.

And if anyone writes to tell you about the ceiling in the living room, that is not so bad either.

The spot the rain water made on the ceiling wallpaper is not as big as your hand, really. It is right in the middle of the ceiling near the light but it can be disguised easily.

Of course upstairs it is a little worse because more water got in there. You might have to do the ceiling over in the master bedroom.

Don't get all fretful about where the big limb from a tree knocked a hole in the roof because we took the limb out and covered the hole so it will be weather-proof until you return.

It is not true that every window in the house was broken, only a few were broken and we have them boarded over for you.

Any reports you get about what the flood did in the basement probably will be exaggerated, too.

The furnace man came while we were there and he says there is no immediate danger of an explosion. He said he would be ready to give you a price on fixing the furnace as soon as you get back from your fun in the mountains and are all rested up.

The high water in the basement shorted

out the freezer but we took all the food out so you wouldn't have to contend with that mess.

In order to save some of the better steaks we ate them and you are to be complimented on your epicurean tastes. Don't remember when we've had anything so good.

The washing machine and dryer probably will be okay as soon as they dry out in a week or so. You might have to be careful the first few times they are used to make sure the motors don't burn up but aside from that you can rest easy.

We did the best we could for those fine tools you have in your basement workshop. They are rusty right now but a little elbow grease and emery paper should make them look almost like new.

So keep right on relaxing and enjoying your vacation and don't worry about a thing back here. Everything possible has been done to make emergency repairs.

Naturally, you are concerned about what is happening back on the home front and the above information should convince you that everything is fine, considering how much worse the storm might have been.

Have fun.

Faithfully yours,  
MAX

## This 'n That

The "steam" we see gushing forth from the spout of a boiling teakettle is really not steam at all—it is water vapor. The real steam is in the space between the end of the spout and the cloud of the vapor which forms when the cool air recondenses the steam into vapor.

Mining is one of the oldest industries engaged in by man. Some 8,000 workers, for instance, were once employed in the sixth millennium B.C. in copper and turquoise mines in the Sinai Peninsula.

The university with the largest enrollment in the world is Calcutta University, Calcutta, India. Latest figures have 122,135 students in this institution.

# Trade With Reds Jeopardizes Lives

By DAVID LAWRENCE

Which is more important — to make money for oneself in trading with an enemy or to help save human lives? Everybody would say at once that it is obviously better to avert bloodshed and end any war that's going on. But when this is applied in practice, it turns out that many individuals in various countries, hitherto allied with us, have a greater

passion for dollars or pounds or francs or marks or pesos.

There wouldn't be a war in Viet Nam today and American boys wouldn't be fighting and dying in a far off land if the nations of the world whom the United States has befriended and to whom it continues year after year to send billions of dollars of aid took a stand in support of the American position of Viet Nam.

There would be a different story to tell if trade with Red China were cut off by the free world, and if the Soviets saw that the same thing would happen to them should they keep on siding with North Viet Nam

by building missile sites there and sending weapons to be used to kill American soldiers and airmen. The Russian people, if they knew the facts, would not go along with the Red Chinese.

Perhaps the Johnson administration has failed to be realistic about the situation.

**THE PRESIDENT** has said that he has ample authority to send American armed forces to Southeast Asia under the resolution passed by both houses of Congress on Aug. 10, 1964. While this is true, Congress has not formally declared "a state of war," which is recognized

in international law as requiring all nations to refrain from sending contraband goods to the belligerents under penalty of seizure or confiscation of shipments of such commodities.

Red China is in every sense a co-belligerent with North Viet Nam. The Viet Cong couldn't last a month if forces and weapons were not supplied directly or indirectly by the Communist regime in Peking.

But what is the news that the American people read in the headlines last week? Canada has announced that it has just completed a deal to sell \$450 million worth of wheat to the Soviet government. This il-

lustrates the importance placed on international trade and the dependence of the Communist bloc on trade with the free world.

It has been argued that more trade will produce better relations with the Communist regimes, and a new scheme now is being pushed here to sell vast quantities of U.S. wheat to Communist countries, especially in Eastern Europe.

**MUCH OF THE** American grain which would be shipped to the Communists in Eastern Europe or elsewhere has been bought and paid for by United States taxpayers through the farm-subsidy program. The Chicago Tribune says editorially:

"If the sale is approved, we will be selling wheat to Communists at 75 cents a bushel less than American flour millers have to pay for it. And if Congress authorizes the administration's new wheat program, the Communists next year will be able to buy our wheat at \$1.25 a bushel less than it is sold for food in this country. In other words, the administration proposes to sell our wheat to Communists at the low world price while at the same time it is asking Congress to boost the price of domestic wheat for food to double the world price—which means American consumers would have to pay higher prices for wheat foods—for example, two cents a loaf more for bread."

Moreover, we are beginning to hear that inasmuch as our grain sales to Russia simply free Russian grain for export to Red China and Cuba, we might as well get in on this trade directly. Not mentioned is the argument that if we did not sell grain to Russia, it would have less grain to supply Red China and Cuba. And if we sell to Red China, why not ship food directly to North Viet Nam, even though it is directing a war against us and killing Americans in South Viet Nam?

"Although grain is not usually classified as 'strategic material' in the sense of arms and ammunition, it certainly becomes strategic when our enemies are hungry and can't feed themselves."

**SO IT COMES** back to the same old question: Which is more important—to make money for oneself or to help save human lives, especially American lives?

The war the United States is fighting in Viet Nam has a worthy purpose and winning it can do a great deal to prevent further acts of aggression and to preserve world peace. But if, as in the 1930s, private greed supersedes the interests of the people as a whole, the world may again see a global conflict. For it was the failure of the embargo on oil against Mussolini in 1935 and the flagrant indifference of the nations of Europe to the plea of President Roosevelt in 1937 for a "quarantine" or economic embargo against Hitler that brought on the very conditions which made World War II inevitable.

'Don't Fret About It Being Too Crowded. With Your Father's Disposition, There'll Be Plenty Of Room In Fifteen Minutes'

## Red Terrorists Scarce In Venezuela

By VICTOR RIESEL

CARACAS, VENEZUELA

A few hours after I left Raul Leoni, president of this country, some friends and I went into the night to hunt terrorists.

There was plenty of noise, many sirens, special agents of Digeopol, the national police, regular road blocks, cops with machine guns and automatic rifles and lots of frisking of young men in flashy 1965 cars.

But we found no terrorists—though uniformed policemen have been killed regularly by machine gun fire spitting from fast sports cars and pipelines have been bombed.

Fact is that terrorists are hard to find, because there are so few of them. At most there are but 600 to 800 in disciplined underground cadres, though there are plenty of young people, what with more than 50 per cent of the population under 20 years of age.

The black marketeers will go

as high as 100-1. There are rumors these lapel-grabbing merchants are really tools of the government seeking to latch onto more dollars.

However, some of the marketeers have been sought out and carried off to jail.

The reason the black marketeers can offer 100-1 is that with dollars in hand they can buy goods at a value of 140-1. At least, that's what they say in the smoke-filled cabarets of Warsaw.

Zloty currency is unimposing engraved paper with denominations starting at 20, and going to 50, 100 and 500. Nobody seems to want it.

The U.S. Embassy has 11 billion of the things stored away in closets and bank vaults—from the sale of surplus wheat. The Poles soon must start redeeming them in dollars.

The visitor is kept in a constant state of confusion.

At the statistical rate, one zloty is worth 25 cents and a fair-sized tip for a lunch or a cab ride.

But, at 100-1, as most Poles view it, it is worth a penny. Give it for a tip and you get nothing but coffee in the lap and a dirty look.

## Victoria Yukich Marries In Ceremony At Midland

The Midland Assembly of God Church was the scene of the wedding of Miss Victoria Yukich, daughter of Mr. and Mrs. Mike Yukich of 6th St., Midland, and Airman Gary B. Shaffer, son of Mr. and Mrs. Thomas Shaffer of Beaver Falls, on July 31.

The ceremony was performed at 2:30 o'clock by the Rev. B. F. Richter. The altar was decorated with arrangements of peace roses. Preceding the ceremony, Miss Marjorie Atkins presented a recital of wedding music.

Given in marriage by her father, the bride wore an ivory brocade floor - length gown styled with a round neckline, sculptured bodice, elbow-length sleeves and a bell-shaped skirt. Her shoulder - length illusion veil was held in place by a pearl crown. She carried a cascade of white carnations. Pearls were her only jewelry.

The bride's gown was designed and made by Miss Elizabeth Shaffer, a sister of the bridegroom.

Attendants were Mr. and Mrs. Max Perenovich of Beaver. The matron of honor was attired in a rose and pink linen sheath gown fashioned with round neckline and elbow - length sleeves. She wore a rose headpiece and carried a colonial bouquet of pink carnations. Her string of pearls was a gift of the bride.

Mrs. Yukich wore a beige lace dress over matching taffeta and the bridegroom's mother chose a flowered dacron print ensemble. Both wore white carnation corsages.

A reception for 100 guests followed the ceremony in the social rooms of the First Presbyterian Church of Midland. A four-tier wedding cake centered the bridal table, which also featured a memory candle.

Aides were Miss Marquita Duncan, Miss Linda Webb, Miss Rose Marie Lozzi, Mrs. George Vukelich and Mrs. Pete Perenovich.

The bride is a 1964 graduate of Midland High School and was graduated as a dental technician from the University of Pittsburgh recently. Her husband is a 1962 graduate of Beaver Falls High School and is stationed with the Air Force at Dyess Air Force Base at Abilene, Tex., where the newlyweds are residing.

For traveling, the bride chose a gray ensemble.

The bridegroom's parents were host for 16 members of the bridal party and immediate family at a rehearsal dinner at their home July 30.

Pre-nuptial showers were given by the Midland and Beaver Falls Assembly of God churches and by college classmates of the bride in Pittsburgh.

## Victoria Yukich Marries In Ceremony At Midland

The Midland Assembly of God Church was the scene of the wedding of Miss Victoria Yukich, daughter of Mr. and Mrs. Mike Yukich of 6th St., Midland, and Airman Gary B. Shaffer, son of Mr. and Mrs. Thomas Shaffer of Beaver Falls, on July 31.

The ceremony was performed at 2:30 o'clock by the Rev. B. F. Richter. The altar was decorated with arrangements of peace roses. Preceding the ceremony, Miss Marjorie Atkins presented a recital of wedding music.

Given in marriage by her father, the bride wore an ivory brocade floor-length gown styled with a round neckline, sculptured bodice, elbow-length sleeves and a bell-shaped skirt. Her shoulder-length illusion veil was held in place by a pearl crown. She carried a cascade of white carnations. Pearls were her only jewelry.

The bride's gown was designed and made by Miss Elizabeth Shaffer, a sister of the bridegroom.

## Picnic Will Be Held For District Nurses

The annual picnic of District 3 of the Ohio State Nurses Association will be held Aug. 23 at Homestead Park, Youngstown, from 4 to 8 p.m.

Reservations are to be made by Aug. 20 at 4 p.m. Helen Carney will serve as program chairman.

The private duty nurses will elect their delegates and alternates to the association's convention. Those who will be unable to attend the picnic, but plan to attend the convention, are to send in their names to be placed on the ballot.

## Picnic Plans Outlined By Rotary At Midland

Plans were made for the annual Midland Rotary Club family picnic in September, during a Board of Directors meeting Thursday at the club pavilion. Leo Curto was program chairman during the regular meeting which preceded the board session.

Ernie Dostalick will be program chairman for next Thursday's meeting at 6:15 p. m. at the pavilion.

Attendants were Mr. and Mrs. Max Perenovich of Beaver. The matron of honor was attired in a rose and pink linen sheath gown fashioned with round neckline and elbow-length sleeves. She wore a rose headpiece and carried a colonial bouquet of pink carnations. Her string of pearls was a gift of the bride.

Mrs. Yukich wore a beige lace dress over matching taffeta and the bridegroom's mother chose a flowered dacron print ensemble. Both wore white carnation corsages.

A reception for 100 guests followed the ceremony in the social rooms of the First Presbyterian Church of Midland. A four-tier wedding cake centered the bridal table, which also featured a memory candle.

Aides were Miss Marquita Duncan, Miss Linda Webb, Miss Rose Marie Lozzi, Mrs. George Vukelich and Mrs. Pete Perenovich.

The bride is a 1964 graduate of Midland High School and was graduated as a dental technician from the University of Pittsburgh recently. Her husband is a 1962 graduate of Beaver Falls High School and is stationed with the Air Force at Dvess Air Force Base at Abilene, Tex., where the newlyweds are residing.

For traveling, the bride chose a gray ensemble.

The bridegroom's parents were host for 16 members of the bridal party and immediate family at a rehearsal dinner at their home July 30.

Pre-nuptial showers were given by the Midland and Beaver Falls Assembly of God churches and by college classmates of the bride in Pittsburgh.

A U.S. military spokesman also announced that five U.S. Navy aircraft were lost during an armed reconnaissance flight over North Viet Nam Friday. A U.S. observation plane was lost over South Viet Nam.

Three of the Navy pilots were rescued, a fourth is missing and presumed dead and a fifth is considered missing, the spokesman said.

He said the planes were downed by small arms or conventional antiaircraft fire.

Hupps Are News In A Big Way In Legion Circles

Elizabeth Hupp, daughter of Mr. and Mrs. Edward Hupp of 601 Harrison St., Newell, may have the distinction of being the youngest American Legion Auxiliary past president in the state of West Virginia and perhaps the entire nation, according to a recent article in the national American Legion Auxiliary monthly publication.

Miss Hupp, now 20, was installed as president of the Auxiliary of American Legion Post 114 of Newell when only 19.

Elizabeth's father is a member of the Newell post and has held every office during his membership. Mrs. Hupp is a charter member of the Auxiliary unit and also has served in all capacities and is currently in her second term as president of the First District.

'Progress' Seen In Negotiations By Weirton Steel

"Considerable progress has been made in negotiations and the company expects to conclude an agreement in the near future with the Independent Steelworkers Union."

The words are those of C. G. Tournay, president of the Weirton Steel Co.

Tournay stated that "the extended period of negotiations at Weirton, as well as in the balance of the steel industry, has undoubtedly created anxiety in the minds of ISU leaders, which led them to serve the termination notice announced on Thursday."

In its announcement, the union said it had served notice that its extension agreement with Weirton Steel will expire at midnight Sept. 11. The extension agreement has been in effect since May 14.

Tournay commented that "competitive problems of the steel industry together with the competitive problems of the Weirton Steel Co. within the industry, make negotiations this year particularly difficult."

"We have every expectation, however," he added, "of continuing our 32-year record of reaching amicable settlements without a single interruption of production — a record that has served the best interests of company employees, the community and our customers."

Ohio Gas Firm Files \$75,528 Damage Suit

AKRON, Ohio (AP)—The East Ohio Gas Co. has filed a \$75,528 damage claim with the Summit County commissioners as its cost to move gas lines to escape dredging operations in the Tuscarawas river. The \$530,100 river project is designed to bring flood relief to residents and industries along the river and its tributaries.

County Engineer Leslie G. Wolfe said he would meet next week with a representative of the Ohio Department of Public Works, which is providing most of the funds, and a state engineer to determine responsibility for the gas company's claim.

County Employee Hurt As Mower Overturns

A 63-year-old Columbiana County Highway Department worker was hospitalized Friday afternoon after he was partially pinned under his mowing machine when it overturned on an embankment in the New Waterford area.

Irvin McGee of 117 E. Spruce St., Lisbon was in "fair" condition today at Salem Central Clinic with a fractured pelvis, and ribs, bruises and abrasions suffered in the mishap at 1:15 p. m.

McGee was mowing the top of an embankment along Need Rd., a half-mile from Route 46, when the soil gave way under the right wheels and the machine rolled down the bank.

people throughout the world—in Viet Nam, the Dominican Republic, and the Congo."

Police and the angry mob battled up and down an eight-block stretch of Pulaski Road in the Garfield Park district.

Rioters, some on roof tops, hurled missiles in the darkness at policemen and motorists.

Friday night's fighting started after hundreds of Negroes came to the scene of Thursday night's disturbance for a civil rights demonstration. Fighting erupted after Robert Wiens, 25, a white policeman on his way to work in civilian clothes, was attacked and slashed by a group of Negroes.

A mob had gathered at a fire station Thursday night after 20-year-old Dessie Mae Williams was killed accidentally. She was crushed by a falling traffic sign which was toppled from its moorings by a hook-and-ladder fire truck responding to a false fire. Three firemen were suspended. Seventeen Negro firemen were assigned to the fire station in an effort to forestall further demonstrations.

Friday night's civil rights rally was in protest of the woman's death and an alleged lack of integration in the fire department.

FOR US THE LIVING

THE PROBLEM of the family burial estate is something most of us put off until it must be settled. But then it is too late to have the family Memorial be all it should be — a family decision. But how sensible to choose it now! Everyone concerned can have his say. Why not discuss the subject frankly with your family now?

Then see us. We have a large selection of beautifully designed Monuments in our showrooms, to fit any need and within your means. For your convenience we also carry a complete line of Bronze Markers. We offer home counsel, or transportation, if you live beyond a visit.

Why not let Graham and Wagner artists and craftsmen help you plan and build a worthy family Memorial?

Your Memorial is the most permanent of all investments, therefore, should be selected with the calm realization that it is a final purchase.

May we have the privilege of assisting you, without obligation, of course.

tary sources said the Viet Cong might decide to put up a fight.

A U.S. military spokesman also announced that five U.S. Navy aircraft were lost during an armed reconnaissance flight over North Viet Nam Friday.

A U.S. observation plane was lost over South Viet Nam.

Three of the Navy pilots were rescued, a fourth is missing and presumed dead and a fifth is considered missing, the spokes- man said.

He said the planes were downed by small arms or con- ventional antiaircraft fire.

Hupps Are News In A Big Way In Legion Circles

Elizabeth Hupp, daughter of Mr. and Mrs. Edward Hupp of 601 Harrison St., Newell, may have the distinction of being the youngest American Legion Auxiliary past president in the state of West Virginia and per- haps the entire nation, accord- ing to a recent article in the national American Legion Aux- iliary monthly publication.

Miss Hupp, now 20, was in- stalled as president of the Aux- iliary of American Legion Post 114 of Newell when only 19.

Elizabeth's father is a mem- ber of the Newell post and has held every office during his membership.

Mrs. Hupp is a charter member of the Auxil- iary unit and also has served in all capacities and is current- ly in her second term as presi- dent of the First District.

'Progress' Seen In Negotiations By Weirton Steel

"Considerable progress has been made in negotiations and the company expects to con- clude an agreement in the near future with the Independent Steelworkers Union."

The words are those of C. G. Tournay, president of the Weirton Steel Co.

Tournay stated that "the ex- tended period of negotiations at Weirton, as well as in the bal- ance of the steel industry, has undoubtedly created anxiety in the minds of ISU leaders, which led them to serve the termina- tion notice announced on Thurs- day."

In its announcement, the union said it had served notice that its extension agreement with Weirton Steel will expire at midnight Sept. 11. The exten- sion agreement has been in ef- fect since May 14.

Tournay commented that "competitive problems of the steel industry together with the competitive problems of the Weirton Steel Co. within the in- dustry, make negotiations this year particularly difficult."

"We have every expectation, however," he added, "of con- tinuing our 32-year record of reaching amicable settlements without a single interruption of production — a record that has served the best interests of com- pany employees, the community and our customers."

Grange Will Discuss Its Future At Meeting

The Pleasant Valley Grange will discuss whether or not to continue the organization during a coverdish dinner Tuesday night at 7 at the Grange Hall near Millport.

Those attending are to take table service. Beverages will be furnished.

Mrs. Pauline Mansfield, lec- turer, will be in charge of the program. A cookie contest will be held, along with a flower show contest. The winners will go to the Pomona Grange con- test at the Bayard Grange near Minerva Aug. 21.

Killed By Train LIMA, Ohio (AP)—A 49-year-old Lima woman was killed Friday when her car was struck by a Pennsylvania Railroad train at a crossing three miles east of here. The victim was identified as Alma Irene Smith.

The song, "Hail to the Chief," which is traditionally played at public affairs upon the entrance of the president, was played.

people throughout the world—in Viet Nam, the Dominican Re- public, and the Congo."

Police and the angry mob battled up and down an eight- block stretch of Pulaski Road in the Garfield Park district.

Rioters, some on roof tops, hurled missiles in the darkness at policemen and motorists.

Friday night's fighting started after hundreds of Negroes came to the scene of Thursday night's disturbance for a civil rights demonstration. Fighting erupted after Robert Wiens, 25, a white policeman on his way to work in civilian clothes, was attacked and slashed by a group of Ne- groes.

A mob had gathered at a fire station Thursday night after 20-year-old Dessie Mae Williams was killed accidentally. She was crushed by a falling traffic sign which was toppled from its moorings by a hook-and-ladder fire truck responding to a false fire. Three firemen were sus- pended. Seventeen Negro fire- men were assigned to the fire station in an effort to forestall further demonstrations.

Friday night's civil rights rally was in protest of the woman's death and an alleged lack of integration in the fire depart- ment.

FOR US THE LIVING

THE PROBLEM of the family burial estate is something most of us put off until it must be settled. But then it is too late to have the family Memorial be all it should be — a family decision. But how sensible to choose it now! Everyone concerned can have his say. Why not discuss the subject frankly with your family now?

Then see us. We have a large selection of beautifully designed Monuments in our showrooms, to fit any need and within your means. For your convenience we also carry a complete line of Bronze Markers. We offer home counsel, or transportation, if you live beyond a visit. Why not let Graham and Wagner artists and craftsmen help you plan and build a worthy family Memorial?

Your Memorial is the most permanent of all investments, therefore, should be selected with the calm realization that it is a final purchase. May we have the privilege of assisting you, without obligation, of course.

## New River-To-Lake Highway Will Link East Liverpool And Busy Northern Port

By ROBERT POPP

Within the next five years, the Ohio Highway Department will tie together a \$100 million package promising progress for industrial counties stretching from the Ohio River to Lake Erie — four lanes of concrete linking East Liverpool on the south with Ashtabula on the north.

On the other end of the Lake Erie-Ohio River Highway is the busy port city of Ashtabula, similar to East Liverpool in many ways because of its orientation to water transportation.

Lake Erie has played a primary role in the growth and history of the city of 25,100 just as the Ohio River has been a major factor throughout East Liverpool's development.

Some stages of the lake-river road have been completed in the Ashtabula area in the highway department's stage-by-stage construction of what will be one of the state's major highways when it is finished about 1970.

THE ASHTABULA end of the lake-river road virtually is a twin to the sections that have been completed in the East Liverpool area. There are the same wide rights-of-way and a concrete ribbon that looks for all the world like this end of the highway.

But at Ashtabula it is more commonly known as State Route 11, the designation picked for the road several years ago by the highway department.

A four - county organization of civic leaders, working together since 1958, has helped push the highway toward reality. It is the Lake Erie-Ohio River Highway Association, comprised of men in Columbiana, Mahoning, Trumbull and Ashtabula Counties.

Columbiana County is represented on the association's board by E. R. Chandler, executive manager of the Cham-

ber of Commerce, Atty. Francis H. Lang, charter president of the organization, and A. P. Morris of Salem, manager of the Columbiana County Motor Club.

WHEN THE HIGHWAY is completed, its backers visualize iron ore and other raw materials flowing off of lake boats docked at Ashtabula for trans - shipment via State Route 11 to steel mills in the Youngstown - Warren area. And they visualize a grow-

ing influx of other raw materials being unloaded at the Ohio River docks in East Liverpool for shipment to the steel mills of the region or north to the lake ports.

The Port of Ashtabula has three ore unloading docks, two coal loading terminals, a limestone unloading area and a general bulk and package cargo dock. It offers 30,000 feet of dock frontage plus open storage for four million bulk tons.

Major expansion of the dock facilities has been going on since 1955, with more than \$8 million spent on enlarging frontage and deepening channels. Additional warehouse facilities are under construction.

Like East Liverpool, Ashtabula makes capital of the fact it offers an inexhaustible water supply. Ashtabula has all of Lake Erie upon which to draw. The area used 1.4 billion gallons of water during 1964.

ONE OF THE busiest ports on the Great Lakes, Ashtabula receives a heavy tonnage of iron ore, but also handles other bulk materials. It ships out tremendous quantities of coal, unloading it from railroad hopper cars directly into lake streamers at the docks.

During 1964, the Port of Ashtabula handled 4.5 million cargo tons, more than its big neighbor to the west—Cleveland.

It uses the slogan: "Key City in the Best Location in the Nation."

Completion of the St. Lawrence Seaway contributed greatly to the development of Ashtabula's dock area.

Modern buckets unload a

coal-laden ship in a matter of hours, lifting 17 to 22 tons at each grab. Coal is loaded by dumping a full railroad carload at a time, normally about 40 carloads an hour.

In addition to coal and iron ore, the port handles large quantities of limestone and salt, plus finished materials.

Ashtabula historians explain the city derived its name from an Indian word applied to the river of the same name—an appellation meaning "River of Many Fish."

THE ASHTABULA River was the dividing line between the hunting grounds of the Senecas, Cayugas, Delawares and other tribes from the east and the Chippewas, Ottawas, Wyandottes and other tribes to the west.

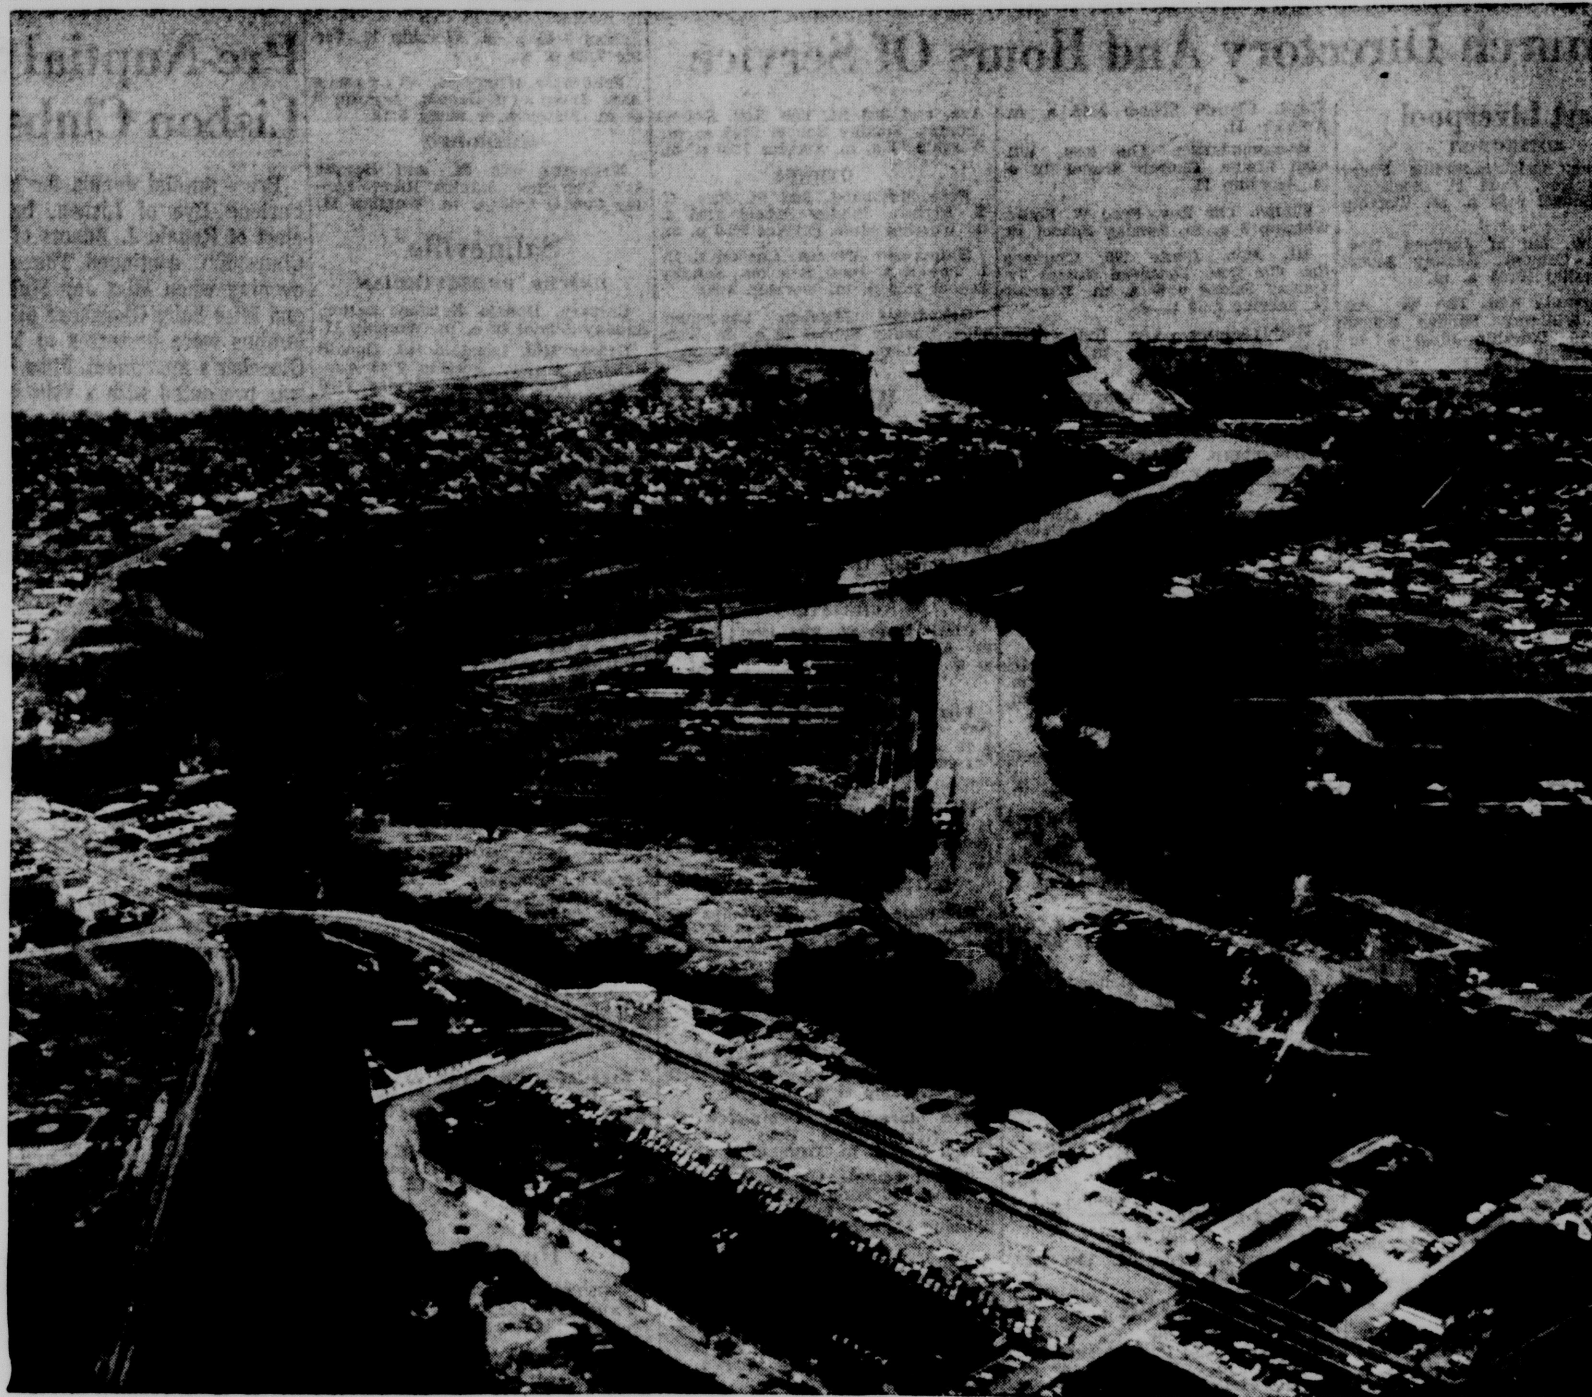

The first white man, named Thomas Hamilton, erected a home in what is now Ashtabula in June of 1801. Ashtabula Township was organized in 1808 and the village of Ashtabula — forerunner of the modern city — was created in 1831.

Ashtabula played a major role in the war of 1812, helping defend Lake Erie from the British invaders.

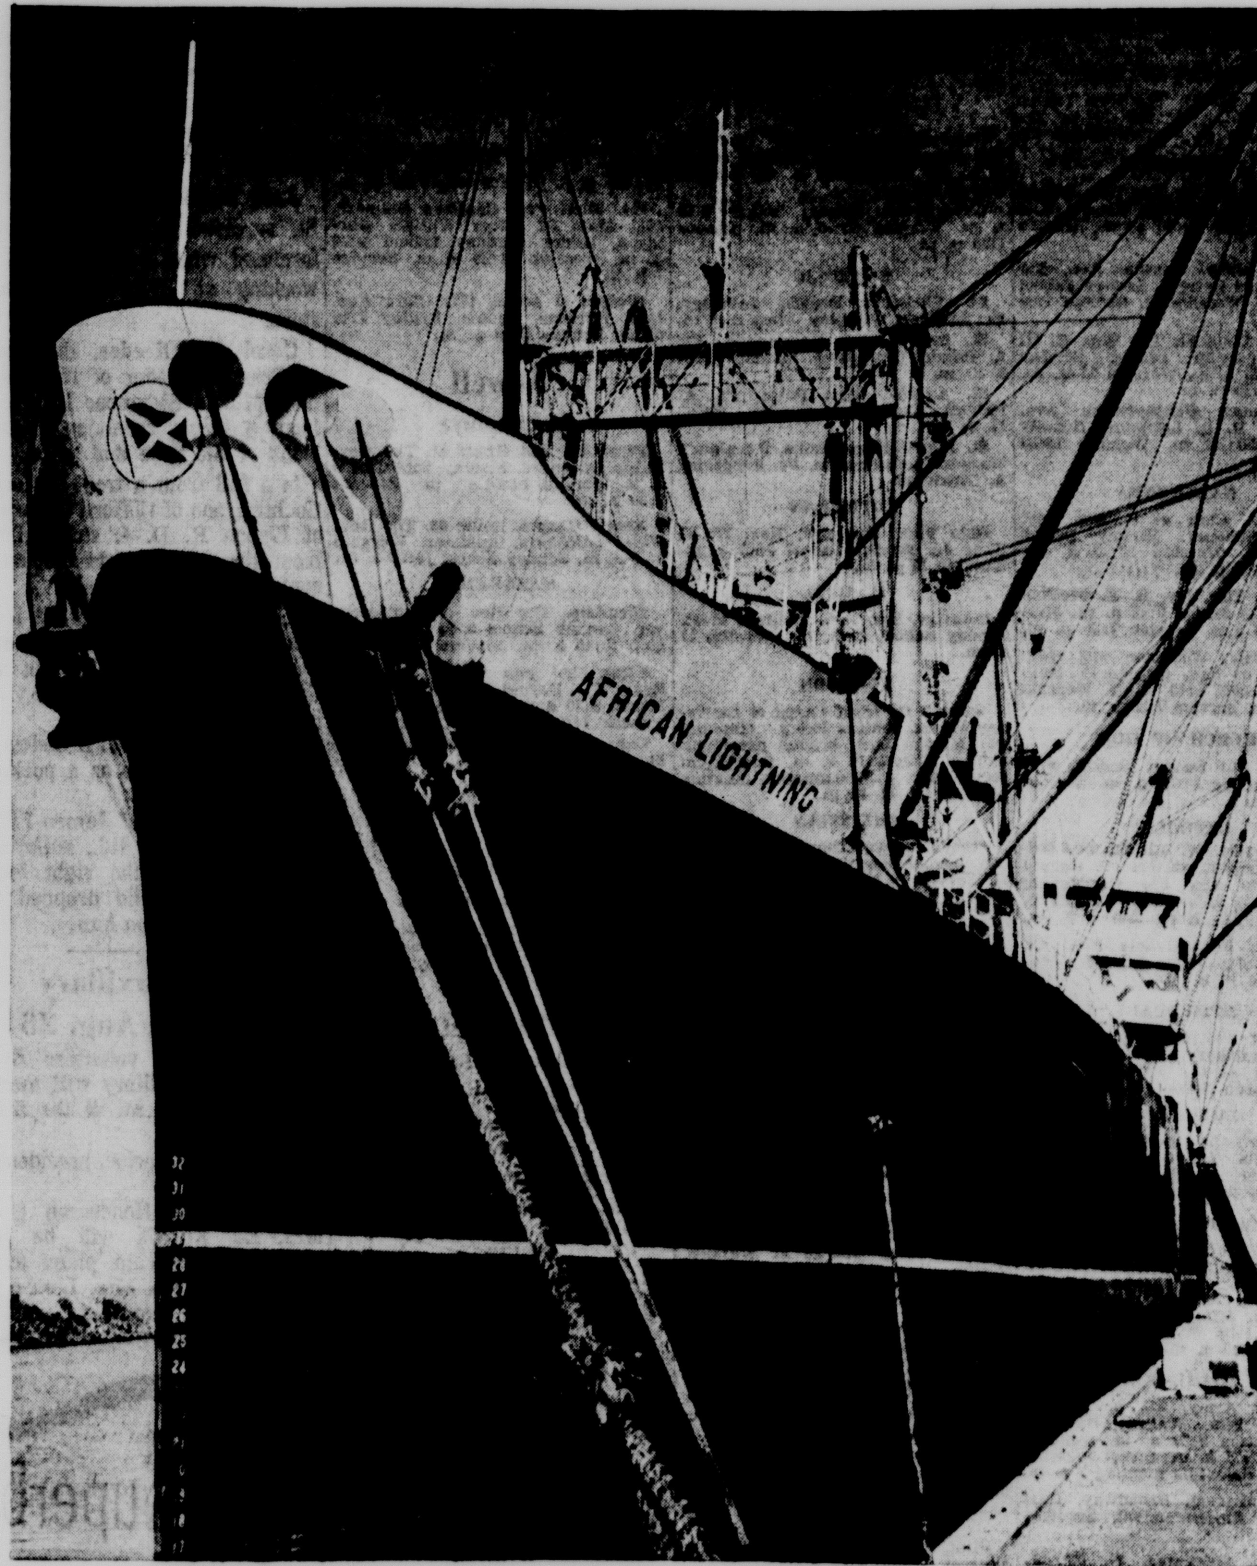

Ashtabula today produces everything from mushrooms to cashmere sweaters. It has steel and plastics fabricators, chemical processors, and rubber and tool manufacturers.

Like East Liverpool, Ashtabula has been working the last few years to attract new industry and strengthen its present plants.

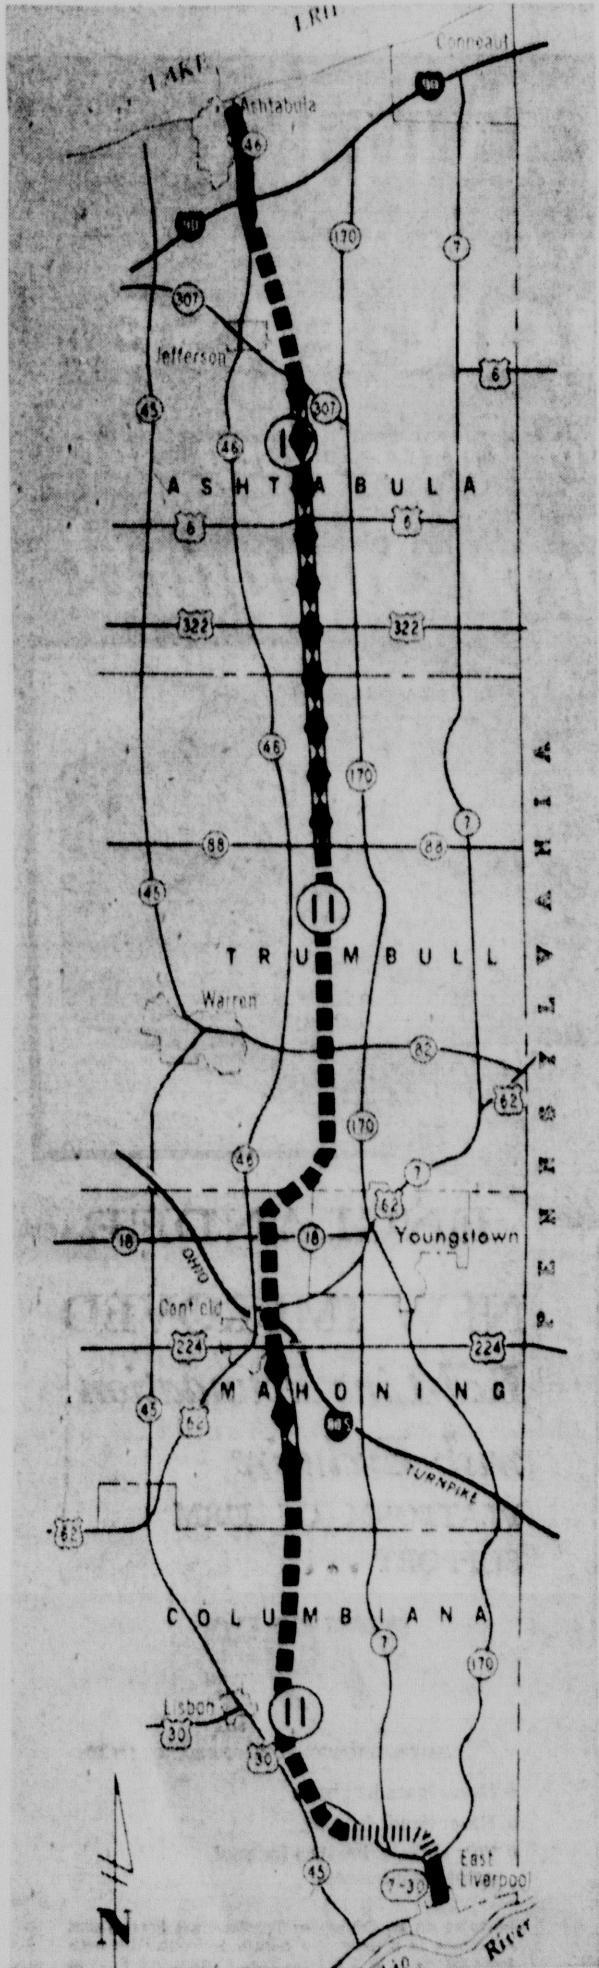

A brochure issued by the Ashtabula Area Chamber of Commerce lists 75 firms engaged in manufacturing, processing and related fields.

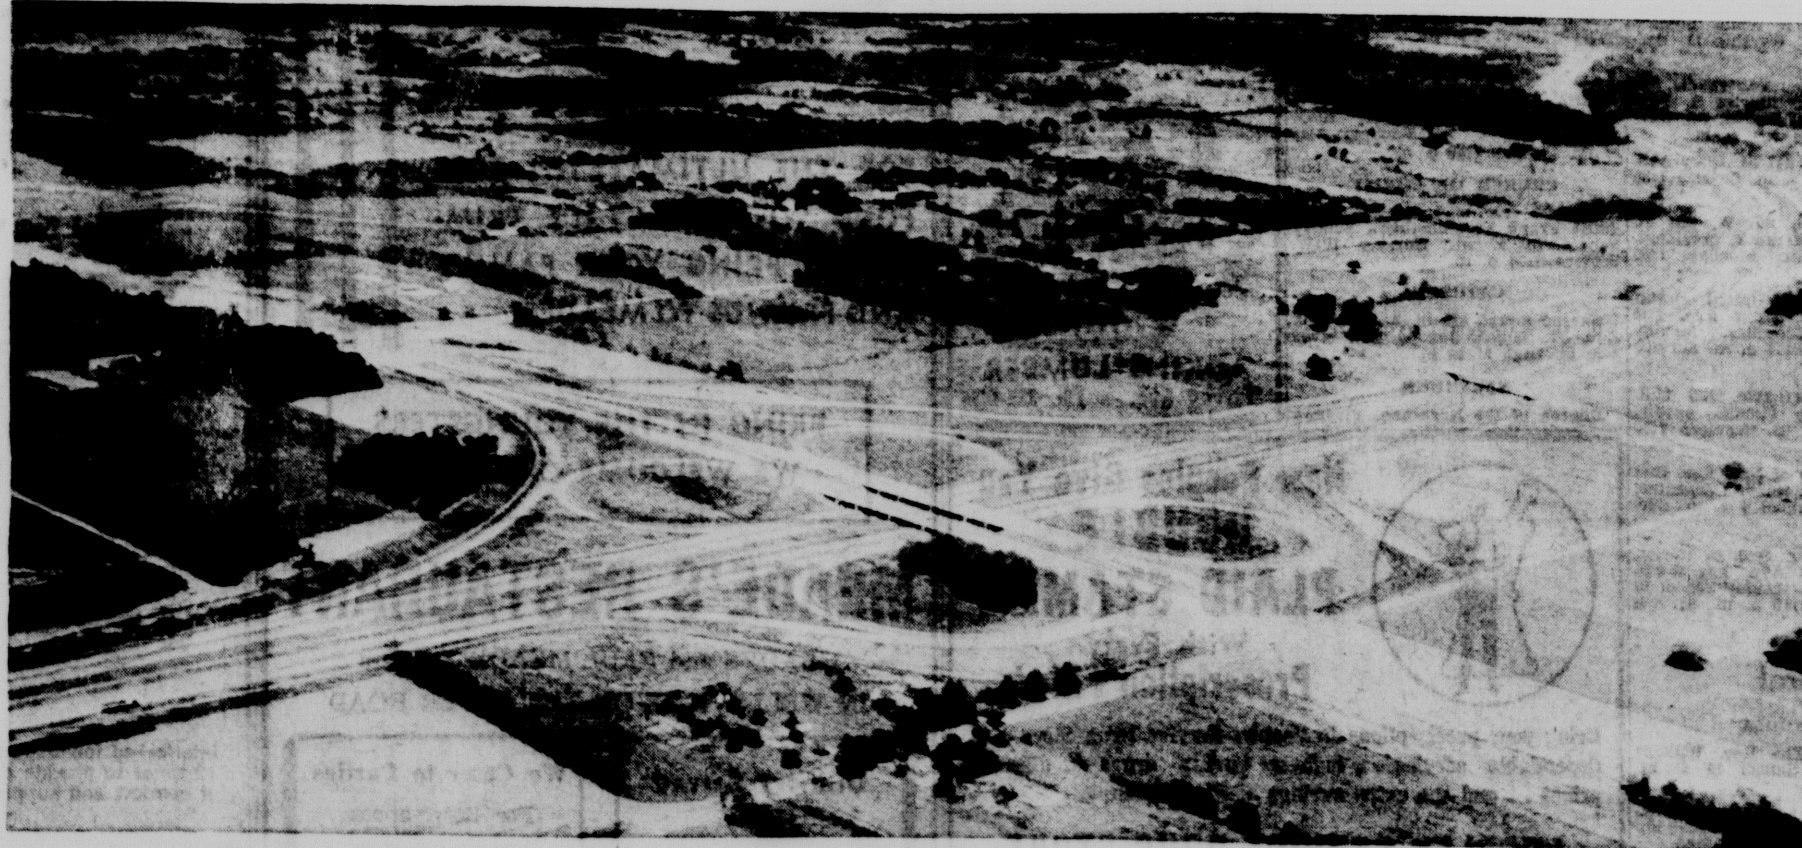

Railroad, highway and lake shipping facilities sprawl in a complex pattern along the dock district of Ashtabula, to be linked within a few years to East Liverpool by the four-lane Ohio River - Lake Erie Highway.

Iron ore, limestone and other raw materials and goods from ports throughout the world are unloaded at Ashtabula docks from freighters such as this. The Ohio shipping center also loads coal for other destinations.

Complete sections of the Ohio River-Lake Erie Highway are shown by solid black lines. Thin dotted lines show the section under construction north of Route 170. Regular dotted lines locate section for which bids are being received and diamond dots identify areas still in the design stage.

The River-To-Lake Road passes over busy east-west highway Route 20 at this interchange just outside of Ashtabula. Route 11 extends about five miles south of the city in the first completed northern section of the \$100,000,000 limited access highway.

An apparent 5-mile difference between East Liverpool and the Ohio border listed on road sign brings a smile from Carolyn Reed, 17, of Chester R. D. 1.

# New Math Used In Road Signs?

Tri-State District mathematicians may not be familiar with the "PDH Theorem," but it is spelled out in black and white on two Route 30 signs in Beaver County.

The "PDH Theorem" reads: The distance between two points decreases as one approaches them.

For example, if East Liverpool and the Ohio line are five miles apart when a motorist is driving toward them at the intersection of Pennsylvania Route 51, the distance between the city and the Ohio line is only three miles when the motorist reaches Laughlin's Corners.

AND BY THE TIME the motorist has crossed the Chester Bridge the distance between the city limits and the state line is nil!

Most district residents have always believed the Ohio line and the East Liverpool limits were one and the same bordering Pennsylvania and West Virginia.

Not so, according to the "PDH Theorem," if one is outside the city.

Who discovered the "PDH Theorem"?

No one will admit to the finding, nor even to a guess what "PDH" represents, but some point to the similarity of the initials with those of the Pennsylvania Department of Highways under whose aegis the signs were apparently erected.

THAT THERE MIGHT be an error involved in the signs has been pondered by such observers as Mrs. James Fortiner of 749 St. Clair Ave. who called the mathematical oddity to the attention of The Review news staff.

There is, of course, an error. The distance from Laughlin's Corners to the Ohio line is 6.5 miles—not 6 miles as the sign indicates.

So the brush-wielding advocate of the "PDH Theorem" had better make a correction—PDQ!

Carolyn's confused over the decrease of the claimed distance between the city and Ohio border as revealed in this Laughlin's Corners sign.

## You And The Law

There are many laws which protect the consumer today from irregularities in product packaging and labeling.

For instance, if a certain compound is designed for treatment of illness or affects bodily functions, it must be registered with the Federal Food and Drug Administration as a drug. Failure to register can bring stiff penalties. You might be surprised to know that a "label" may consist of more than what you see on the outside of a package. In one recent case, "label" was construed to include a special booklet accompanying the product package.

IN ADDITION to a name of the product on the label, the law requires other specific information to be visible. The quantity contained in the package, and the name and address of the manufacturer,

packer or distributor must be visible.

You have probably noted that, in most cases, the address is usually just a city. The law here says that if the manufacturer, packer or distributor named is listed in the directory of the city where it is located, the city name is sufficient as an "address."

Labeling can take different forms. For instance, oleomargarine must be so marked so that it cannot be mistaken for butter. The marking can be the word "Oleomargarine" stamped on the product, but, when served in a restaurant, the product may be cut into triangular pats, the shape rather than the word becoming the "label."

THE LAW also specifies what warnings must appear on the labels of dangerous substances. For example, a cough

syrup may bear this note: "Warning — Persons with a high fever or persistent cough should not use this preparation unless directed by a physician."

There is also a "Hazardous Substances Labeling Act" which provides for warnings on substances that could cause injury through customary use, may cause illness through inhalation, etc. The act specifies seven conditions under which a product may be tagged as hazardous. Misbranded articles in this category may be seized by the government and condemned.

Most manufacturers are quite willing to comply with the various labeling regulations. After all, conformance shows the purchaser that this is a reliable product. And sales are what keep the manufacturer in business.

### Father's Helper

BRENTON, Ky. — While preaching during a revival, Dr. Jack Horton noticed his young daughter pinching the children near her.

Occasionally, she would heave a paper wad at those seated further away.

After services, he began scolding the child and was told:

"You preach to 'em. I'll keep 'em awake."

Mrs. David Doyle of 919 Main St., Wellsville, home economist and teacher of dietetics, submits this recipe heralding the grape season.

#### Grape Leaf Roll

25 grape leaves  
1/2 tsp. salt  
juice of 1 lemon

#### Stuffing

1/2 cup uncooked rice rinsed in water  
1/2 lb. gr. lamb or beef  
salt and pepper to taste  
Combine all ingredients, mix well and set aside.

To soften grape leaves, soak in hot water for 15 minutes. Remove from water, squeeze out moisture and remove stems. Place 1 tbsp. stuffing across each leaf, fold end of leaf like an envelope and roll away from yourself.

Line a pan with plain leaves. Arrange stuffed leaves in rows alternating direction of each row. Sprinkle salt over stuffed leaves. Press the leaves down with an inverted dish as the rice swells.

Leave the dish on, cover with lid, and cook over low fire for about 35 minutes, or

until tender. During the last 10 minutes add the lemon juice.

Serve with lemon wedges.

## Motor Club Recommendation Tri-State Tour Tips

In the Dayton area are a variety of state memorials worthy of visits.

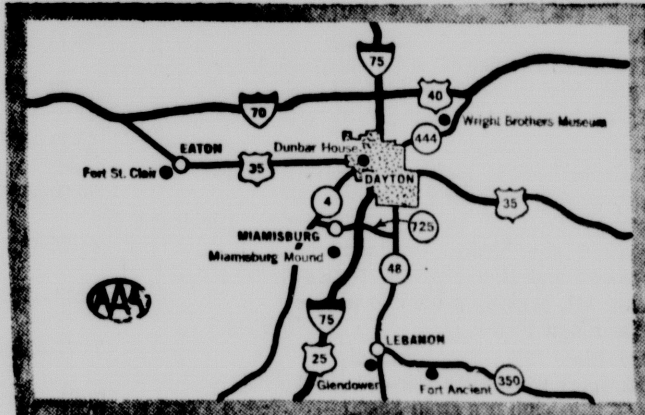

In Dayton itself is the Paul Laurence Dunbar Home, commemorating that city's Negro poet. Dunbar, 1870-1906, was born in poverty, the son of slaves, and it has been stated that "his life portrays the struggle of the Negro people up the hill from bondage."

In school at Dayton, one of Dunbar's friends was Orville Wright.

Other state memorials included in this tour area: Fort St. Clair, in Preble County west of Eaton, was the site of a fort built by General James Wilkinson in 1792, for the Ohio frontier in the Indian Wars. The memorial covers 90 acres.

Miamisburg Mound is a two-acre state park with the large conical prehistoric burial ground in Ohio, southeast of Miamisburg.

Fort Ancient, seven miles east of Lebanon on the Little Miami River features two outstanding prehistoric Indian sites, the Fort Ancient Earth-

works and the Anderson Village Site. The earthworks are believed to have been built by Hopewell Indians two or three centuries before Columbus discovered America. It is believed that the earthworks were constructed for both defense and ceremonial purposes.

Glendower at Lebanon is one of the most beautiful homes of this historic city. A white-painted brick on a stone foundation, Glendower is rated as an outstanding example of Greek Revival architecture in the Midwest. It had a distinguished series of occupants until presented to the state in 1945.

The Air Force Museum at Wright - Patterson Air Force Base is worth including in this tour if time permits.

The Columbiana County Motor Club suggests this routing to the tour area: Ohio-7 to 22 to 40 North of Dayton.

Return can be 40 to Interstate 71 to Ohio 250 to U. S. 30 to East Liverpool.

### How Can I?

By ANNE ASHLEY

Q.—How can I improvise a good metal polish?

A.—A stick of ordinary blackboard chalk makes a fine metal polish. Just rub a little soft-grade chalk onto a dry or damp cloth, and apply this to the metal surface. There is just enough abrasiveness in the chalk to remove dirt and grease without scratching, and it leaves a nice, glossy finish on the metal.

Q.—After oiling my sewing machine, how can I be sure to rid it of all excess oil before beginning my sewing?

A.—By stitching a couple of times through a blotter.

Q.—How can I make a substitute adhesive?

A.—Evaporated milk makes a good emergency "stickum" for a label, a stamp, or a snapshot, if you happen to be out of paste or mucilage.

## Stamps In The News

It may be a little early to do Christmas shopping, but the Post Office Department is ready with its 1965 Christmas postage stamp. The 5-center will reproduce an early 19th Century New England weather-vane depicting "Gabriel" blowing his horn. The stamp

the Stanley Gibbons Catalog Centenary Exhibition in London. The stamp is the 1 cent British Guiana Black on Magenta valued at \$75,000. It was issued in 1856 and is the only known copy in existence.

will be issued in November but first-day place and date have not yet been announced. This will be the fourth in the series of stamps intended for use during the holiday season and will probably again arouse animosities from various people, ranging from the group which thinks such a stamp is too religious to the group which concludes it is not religious enough. . . plus the usual critics who find fault with design, color or reproduction.

The Gabriel weathervane stamp is based on a watercolor by Boston artist Lucille Gloria Chabot, painted in 1939, and is part of the Index of American Design, housed in the National Gallery of Art in Washington.

Many nations throughout the world have issued stamps honoring the late Sir Winston Churchill. The initial printing of the U.S. stamp was 112 million when it went on sale May 13. Now the commemorative is being returned to the press for a further printing of 10 million. Reprinting of U.S. stamps is not common and therefore considered a tribute to the popularity of the "man of the century."

An apparent 5-mile difference between East Liverpool and the Ohio border listed on road sign brings a smile from Carolyn Reed, 17, of Chester R. D. 1.

# New Math Used In Road Signs?

Tri-State District mathematicians may not be familiar with the "PDH Theorem," but it is spelled out in black and white on two Route 30 signs in Beaver County.

The "PDH Theorem" reads: The distance between two points decreases as one approaches them.

For example, if East Liverpool and the Ohio line are five miles apart when a motorist is driving toward them at the intersection of Pennsylvania Route 51, the distance between the city and the Ohio line is only three miles when the motorist reaches Laughlin's Corners.

AND BY THE TIME the motorist has crossed the Chester Bridge the distance between the city limits and the state line is nil!

Most district residents have always believed the Ohio line and the East Liverpool limits were one and the same bordering Pennsylvania and West Virginia.

Not so, according to the "PDH Theorem," if one is outside the city.

Who discovered the "PDH Theorem"?

No one will admit to the finding, nor even to a guess what "PDH" represents, but some point to the similarity of the initials with those of the Pennsylvania Department of Highways under whose aegis the signs were apparently erected.

THAT THERE MIGHT be an error involved in the signs has been pondered by such observers as Mrs. James Fortner of 749 St. Clair Ave. who called the mathematical oddity to the attention of The Review news staff.

There is, of course, an error. The distance from Laughlin's Corners to the Ohio line is 6.5 miles—not 6 miles as the sign indicates.

So the brush-wielding advocate of the "PDH Theorem" had better make a correction—PDQ!

Carolyn's confused over the decrease of the claimed distance between the city and Ohio border as revealed in this Laughlin's Corners sign.

## You And The Law

There are many laws which protect the consumer today from irregularities in product packaging and labeling.

For instance, if a certain compound is designed for treatment of illness or affects bodily functions, it must be registered with the Federal Food and Drug Administration as a drug. Failure to register can bring stiff penalties.

You might be surprised to know that a "label" may consist of more than what you see on the outside of a package. In one recent case, "label" was construed to include a special booklet accompanying the product package.

IN ADDITION to a name of the product on the label, the law requires other specific information to be visible. The quantity contained in the package, and the name and address of the manufacturer,

packer or distributor must be visible.

You have probably noted that, in most cases, the address is usually just a city. The law here says that if the manufacturer, packer or distributor named is listed in the directory of the city where it is located, the city name is sufficient as an "address."

Labeling can take different forms. For instance, oleomargarine must be so marked so that it cannot be mistaken for butter. The marking can be the word "Oleomargarine" stamped on the product, but, when served in a restaurant, the product may be cut into triangular pats, the shape rather than the word becoming the "label."

THE LAW also specifies what warnings must appear on the labels of dangerous substances. For example, a cough

syrup may bear this note: "Warning — Persons with a high fever or persistent cough should not use this preparation unless directed by a physician."

There is also a "Hazardous Substances Labeling Act" which provides for warnings on substances that could cause injury through customary use, may cause illness through inhalation, etc. The act specifies seven conditions under which a product may be tagged as hazardous. Misbranded articles in this category may be seized by the government and condemned.

Most manufacturers are quite willing to comply with the various labeling regulations. After all, conformance shows the purchaser that this is a reliable product. And sales are what keep the manufacturer in business.

BRENTON, Ky. — While preaching during a revival, Dr. Jack Horton noticed his young daughter pinching the children near her.

Occasionally, she would heave a paper wad at those seated further away.

After services, he began scolding the child and was told:

"You preach to 'em. I'll keep 'em awake."

Mrs. David Doyle of 919 Main St., Wellsville, home economist and teacher of dietetics, submits this recipe heralding the grape season.

#### Grape Leaf Roll

25 grape leaves  
1/2 tsp. salt  
juice of 1 lemon

#### Stuffing

1/2 cup uncooked rice rinsed in water  
1/2 lb. gr. lamb or beef  
salt and pepper to taste  
Combine all ingredients, mix well and set aside.

To soften grape leaves, soak in hot water for 15 minutes. Remove from water, squeeze out moisture and remove stems. Place 1 tblsp. stuffing across each leaf, fold end of leaf like an envelope and roll away from yourself. Line a pan with plain leaves. Arrange stuffed leaves in rows alternating direction of each row. Sprinkle salt over stuffed leaves. Press the leaves down with an inverted dish as the rice swells.

Leave the dish on, cover with lid, and cook over low fire for about 35 minutes, or

until tender. During the last 10 minutes add the lemon juice.

Serve with lemon wedges.

## Tri-State Tour Tips

In the Dayton area are a variety of state memorials worthy of visits.

In Dayton itself is the Paul Laurence Dunbar Home, commemorating that city's Negro poet. Dunbar, 1870-1906, was born in poverty, the son of slaves, and it has been stated that "his life portrays the struggle of the Negro people up the hill from bondage."

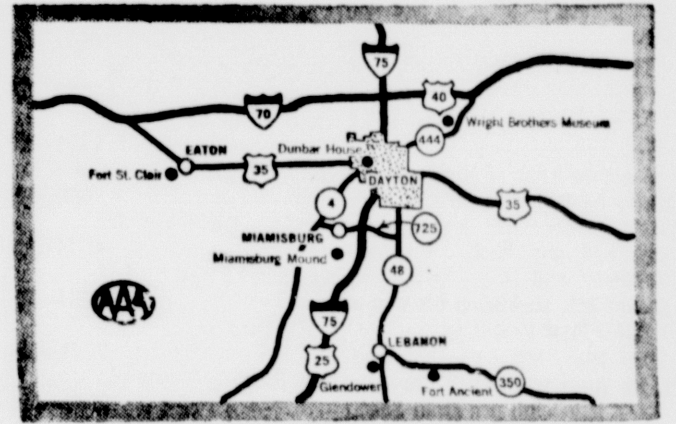

In school at Dayton, one of Dunbar's friends was Orville Wright.

Other state memorials included in this tour area:

Fort St. Clair, in Preble County west of Eaton, was the site of a fort built by General James Wilkinson in 1792, for the Ohio frontier in the Indian Wars. The memorial covers 90 acres.

Miamisburg Mound is a two-acre state park with the largest conical prehistoric burial ground in Ohio, southeast of Miamisburg.

Fort Ancient, seven miles east of Lebanon on the Little Miami River features two outstanding prehistoric Indian sites, the Fort Ancient Earth-

works and the Anderson Village Site. The earthworks are believed to have been built by Hopewell Indians two or three centuries before Columbus discovered America. It is believed that the earthworks were constructed for both defense and ceremonial purposes.

Glendower at Lebanon is one of the most beautiful homes of this historic city. A white-painted brick on a stone foundation, Glendower is rated as an outstanding example of Greek Revival architecture in the Midwest. It had a distinguished series of occupants until presented to the state in 1945.

The Air Force Museum at Wright - Patterson Air Force Base is worth including in this tour if time permits.

The Columbiana County Motor Club suggests this routing to the tour area: Ohio-7 to 22 to 40 North of Dayton. Return can be 40 to Interstate 71 to Ohio 250 to U. S. 30 to East Liverpool.

### How Can I?

By ANNE ASHLEY

Q.—How can I improvise a good metal polish?

A.—A stick of ordinary blackboard chalk makes a fine metal polish. Just rub a little soft-grade chalk onto a dry or damp cloth, and apply this to the metal surface. There is just enough abrasiveness in the chalk to remove dirt and grease without scratching, and it leaves a nice, glossy finish on the metal.

Q.—After oiling my sewing machine, how can I be sure to rid it of all excess oil before beginning my sewing?

A.—By stitching a couple of times through a blotter.

Q.—How can I make a substitute adhesive?

A.—Evaporated milk makes a good emergency "stickum" for a label, a stamp, or a snapshot, if you happen to be out of paste or mucilage.

# Aaron Continues To Lead PGA Field By Two Strokes

## Nicklaus & Marr Tied For Second

By JIM HACKLEMAN  
Associated Press Sports Writer  
LIGONIER, Pa. (AP) — Laurel Valley's serene acres proved a high-pressure area for Tommy Aaron, a scramble for Jack Nicklaus, a pleasure for Dave Marr — and another nightmare for native son Arnold Palmer.

Carrying the tension of being pacesetter of an elite field in a premium tournament, Aaron led the field today into the third round of the 47th Professional Golfers' Association Championship.

Nicklaus, the Masters champion from Columbus, Ohio and solid pre-tournament favorite, skittered all over the hilly, 7,090-yard course for a one-under-par 70 and improved his position by a stroke.

The dapper Marr charged in with a 69 for a second-place tie with Nicklaus, each at 139. And Palmer was socked with his second two-stroke penalty of the tournament for an unbelievable 9 on a par 5 hole.

"I felt the pressure of being the leader, it's hard to play out front," the soft-spoken Aaron admitted after recovering for a par 71 with birdies on three of his last four holes. The 28-year-old Georgian, who fired a 66 on opening day, actually improved his margin to two strokes with his 36-hole 137.

Nicklaus, winner of the last two events on the tour, came in with a 70 — "and pleased to get away with it" — after a string of three birdies on his final nine.

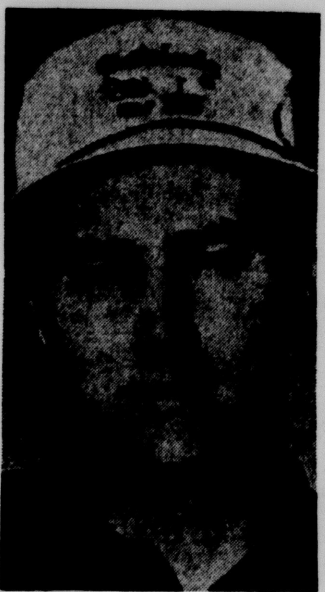

Palmer found nothing but trouble. He started his round on the 10th hole and was severely jammed up by the 11th. On that hole, he hit a small rock in a gulley on a practice swing and wound up taking seven strokes. Officials presented him with two more for hitting the stone — technically, grounding his club in a hazard — after he had told them.

The onetime ruler of golf, now on a decided downgrade, posted a 75 on his home course for a 147.

A stroke back of Nicklaus and Marr, at 140, was steady Billy Casper, whose 70 included 17 pars and one birdie. Gardner Dickinson and Ray Floyd were next at 141, Dickinson blew to a 74 and Floyd took a 73.

Don Bies, Mike Souchak and R. H. Sikes were even par 142. Bies, a slim club pro from Seattle, had a 71 Friday, Souchak a 72, and Sikes a 71.

Defending champion Bobby Nichols was all but out of it with his 74-74-159. Mason Rudolph, one of the first-round stars, ballooned to a 76 for a 143. Sam Snead went up to 75 for 143 and U.S. Open champion Gary Player shot 72-74-146.

TOMMY AARON  
Continues Pace In PGA.

Seventy-seven made the half-way cut for the final two rounds, with 151 needed. Among those who missed were seven ex-PGA champions — Jim Turnesa, Jim Ferrier and Chick Harbert, 152; Jerry Barber, 153; Henry Picard, 156; Bob Rosburg, 157; and Denny Shute, 163.

## Namath Hits For First TD Pass In Pro Ranks

By The Associated Press  
Joe Namath missed the parade, but he didn't miss the boat.

Pulled out of a pre-game parade by Coach Weeb Ewbank, Namath made the most of his first start at quarterback for the New York Jets Friday night by passing for his first touchdown as a pro in a 26-16 American Football League exhibition victory over Boston.

Namath, the Jets' \$400,000 rookie from Alabama, and \$200,000 John Huarte were the headline attractions for the game at Allentown, Pa., but were among those missing as 10 open cars drove down Main Street in a noon-time parade.

## Errors Lead To Spahnnie's Downfall In Loss To Phils

By MIKE RATHET  
Associated Press Sports Writer  
Warren the Wanderer may have found where the Wonder went.

Flashing some of the form that earned him the Wonder tag, San Francisco's 44-year-old Warren Spahn came away a loser as Philadelphia edged the Giants 3-2 Friday night but matched his highest strikeout total in more than four years.

You have to go back to May 1961 — he won 21 games that year — to find a similar performance by Spahn, who struck out nine Phillies and had a four-hit shutout before a seventh-inning error led to three unearned runs and his 14th loss of the season.

The loss, dropped San Francisco 2½ games behind the front-running Los Angeles Dodgers, who defeated Pittsburgh 3-1. Third-place Milwaukee, two percentage points behind the Giants, belted the Chicago Cubs 8-3. St. Louis whipped Cincinnati 7-2 and Houston edged the Mets 3-2.

The Giants built a 2-0 lead for Spahn on second-inning singles by Len Gabrielson, Tom Haller and Hal Lanier and Jim Hart's fourth-inning homer. But Dick Schofield's throwing error on Bobby Wine's grounder paved the way for Spahn's exit and the three unearned runs.

The victory went to Bo Belinsky, who brought his record to 4-8 with two hitless innings of relief work.

Claude Osteen checked the Pirates on six hits and contributed two hits of his own to the Dodgers attack as they defeated Bob Veale for the first time in four tries this season.

Veale, now 12-9, was touched for two runs in the second inning on a single by Lou Johnson, West Parker's double, a single by Jeff Torborg and a bases-

loaded walk to Jim Gilliam. Johnson singled in the final run in the fifth.

Osteen, now 10-11, lost his shutout in the seventh when Donn Clendenon doubled and Bill Mazeroski singled.

Gene Oliver slammed a pair of two-run homers and Eddie Mathews connected for another two-run shot as the Braves rolled to their 23rd victory in the last 32 games.

Denny Lemaster stopped the Cubs on six hits and struck out 13 as he gained his fifth victory against nine losses.

Wildness beat Cincinnati's Jim Maloney, who lost his sixth game against 13 victories when two walks, a wild pitch and Curt Flood's single produced the tie-breaking run for the Cardinals in the seventh inning. Flood then padded the margin with a three-run homer in the eighth.

The Cardinals had scored their first two runs without a hit off Maloney, who was charged with five walks and three wild pitches in 6-1-3 innings.

The Astros scored an unearned run in the ninth inning after Joe Morgan reached second base when left fielder Jim Hickman dropped his fly ball. After two intentional walks filled the bases, Rusty Staub singled Morgan home.

### Bruce Guides Yanks To 16-6 Victory

## North Snaps South's Win Streak In All-Star Game

By HAL PARIS  
CANTON, Ohio (AP) — The North All-stars may have come up with a fool-proof formula for winning their annual football clash with their high school neighbors from the south.

The system? Get a star County coach to direct the Yankees.

Earle Bruce, Massillon's scholastic coach of the year, turned in the honors Friday night, guiding the northerners to a 16-6 triumph over the South before 17,759 in Fawcett Stadium.

It was the first victory for the Yanks since 1960 when Leo Strang, then of Massillon and now at Kent State University, was in charge as the North won, 18-8.

Bruce thus continued a tradition which has seen the Yanks win six times and tie once in the seven games coached by Stark County mentors.

Bruce, who has a 32-3 game winning streak going, won his personal duel with Bob Lewis, the popular Wyoming coach, who piloted the Rebels. Lewis has won 38 in a row, the longest string in the state.

The Yankees coach refused to take any of the credit, though. "We had 25 top notch kids out there," Bruce said.

The northerners, using a strong ground attack, mounted scoring threats only twice, but cashed in both times.

The Rebels capitalized on an intercepted pass for their lone touchdown and a second threat fizzled in the third period.

An injury to Bob Gladioux of Louisville, one of the North's best runners, gave unheralded Joe Pledger of the Cleveland East a chance to show his stuff.

And the 175-pound defensive back, who will attend Kent State this fall, did just that.

The Yanks, with Gladioux, Alan Campbell of Elyria and Bob Houmard of Orrville, leading the way, took the opening kickoff and marched 63 yards in 13 plays for their first marker, with Gladioux plunging across from the one-yard line.

Bob Belden of Canton Central Catholic hit Brian Dowling of

Cleveland St. Ignatius with a pass for a two-point conversion play.

The South bounced back in the second period when Tom Rice, a guard from Lima Senior, intercepted a Belden toss on the North 40 and returned it to the Yankee 33. The Reds needed 13 plays to cover the distance with Gahanna's Bob Glover going the final two for the score.

On the try for the two-point equalizer, Pledger bolted through from his defensive half-back post to nail quarterback Verbie Walder of Dayton Roth as the latter faded back to pass.

Pledger was pressed into offensive action in the fourth period when Gladioux suffered an ankle injury. He promptly sped 32 yards that ignited an 80-yard march in nine plays, giving the Yanks an insurmountable lead.

Campbell, who tallied the last TD on a one-yard buck, picked up 58 yards in 12 carries. He led the North's running game that netted 196 yards.

A hard-nosed Yankee defense limited the Rebels to 52 yards rushing, only 12 in the second half.

The victory evened the 20-game series at nine games apiece. There have been two deadlocks in the annual summer classic.

## James, Hall Team Up To Hurl No-Hit Game

John James and Jeff Hall teamed up to pitch a no-hitter and put Central Service in the final playoffs of the Colt League after a 4-0 victory over the Lawyers Friday.

With the two hurlers blanking the Lawyers in the hit column, Central Service earned the right to meet Riverview in the playoffs.

The pair only showed three strikeouts as James hurled 4 1/3 innings and Hall pitched 2 2/3 innings but had some fine support from their teammates.

Burlingame, the rightfielder, threw out a runner at home after he tagged up on third base.

Canne, the first baseman made a fine catch in short rightfield of another ball. Gerace, the second baseman for the Lawyers, made an outstanding catch of a ball in short rightfield.

Carl Natalina, the losing hurler, only allowed four hits but the Lawyers committed six errors. Rex Campbell's double was the only extra base hit of the game.

## Scafield Nine Captures 17-2 Playoff Win

Scafield's Carry Out eliminated Hancock Savings & Loan, 17-2, in the playoffs of the Chester Softball League.

Howard Wilson, after a shaky start which saw Hancock register both runs in the first inning, settled down to blank the Hancock nine the rest of the way as his team piled up eight runs in the second inning, three in the third and six in the fifth.

Mike Wilson, the fleet footed outfielder, continued to sparkle for the Scafield nine with three hits while Al Dawson and Don Prentice also added three hits for the winners.

Scafield's will meet Gallagher's Market Monday at 7.

## Chester Owner's Horse Will Race

ATLANTIC CITY — Dynamic Leo, owned by James DeLong of Chester has qualified for the \$7,500 Eastern Quarter Horse Derby to be run here Monday.

With jockey F. Watson aboard, Dynamic Leo sped to a strong second-place finish in a qualifying heat on Atlantic City Raceway's 330-yard course earlier this week.

Nine entries survived the trials for positions in the show-down test.

The Derby and a \$10,000 Futurity will be held between scheduled races in the track's thoroughbred card.

The Quarter Horse events are sponsored by the Eastern Quarter Horse Racing Association.

As a result the second-place Orioles failed to gain on Minnesota in the American League pennant race. Cleveland defeated the Twins 3-1 and kept their lead at 8½ games.

The Senators are lagging 16 games further down in eighth place, but they increased their league-leading double play total to 121, extinguishing Baltimore threats in the third, fourth, sixth and ninth innings.

In other AL games Boston edged Chicago 3-2, New York trimmed Kansas City 3-1 and Detroit nipped Los Angeles 2-1.

While the Washington defense was stifling the Orioles, the offense was pulling ahead. Willie Kirkland homered in the fourth, Mike Brumley connected with one on in the fifth and Dick Nen unloaded in the ninth.

## Top Stars Enter Tennis Tourney

Some of the top-ranked tennis stars in Ohio are slated to play on Thompson Park's newly-resurfaced courts during the sixth annual Lions Club tournament Aug. 21-22.

Youngstown's regular tourney contingent — Ed Dubay, ranked seventh in Ohio, Chick Welcher, ranked eighth, and John Garver, 10th — are entered in the men's singles.

Registered for doubles play are Cleo James and Leon Yarnell of New Philadelphia, ranked seventh in the state.

Local entries include Pete Manning and Tim Archer.

Art Turner, tourney aide, said Rick Fine, No. 2 player on the Youngstown University team, is also scheduled to compete.

Turner said last year's finalists—Bob Bennett and Jake Schlosser—are not entered. Bennett is playing in the Chicago area.

Any area players planning to enter the tournament may notify Turner at 385-1355.

Deadline for registration is Sunday midnight. Entry fees are \$2.50 for singles and \$5 for doubles.

Harm Rogers and Dick Martin are in charge of the tournament for the Lions Club.

# Aaron Continues To Lead PGA Field By Two Strokes

## Nicklaus & Marr Tied For Second

By JIM HACKLEMAN  
Associated Press Sports Writer  
LIGONIER, Pa. (AP) — Laurel Valley's serene acres proved a high-pressure area for Tommy Aaron, a scramble for Jack Nicklaus, a pleasure for Dave Marr — and another nightmare for native son Arnold Palmer.

Carrying the tension of being pacesetter of an elite field in a premium tournament, Aaron led the field today into the third round of the 47th Professional Golfers' Association Championship.

Nicklaus, the Masters champion from Columbus, Ohio and solid pre-tournament favorite, skittered all over the hilly, 7,090-yard course for a one-under-par 70 and improved his position by a stroke.

The dapper Marr charged in with a 69 for a second-place tie with Nicklaus, each at 139.

And Palmer was socked with his second two-stroke penalty of the tournament for an unbelievable 9 on a par 5 hole.

"I felt the pressure of being the leader, it's hard to play out front," the soft-spoken Aaron admitted after recovering for a par 71 with birdies on three of his last four holes. The 28-year-old Georgian, who fired a 66 on opening day, actually improved his margin to two strokes with his 36-hole 137.

Nicklaus, winner of the last two events on the tour, came in with a 70 — "and pleased to get away with it" — after a string of three birdies on his final nine.

Palmer found nothing but trouble. He started his round on the 10th hole and was severely jammed up by the 11th. On that hole, he hit a small rock in a gulley on a practice swing and wound up taking seven strokes. Officials presented him with two more for hitting the stone — technically, grounding his club in a hazard — after he had told them.

The onetime ruler of golf, now on a decided downgrade, posted a 75 on his home course for a 147.

A stroke back of Nicklaus and Marr, at 140, was steady Billy Casper, whose 70 included 17 pars and one birdie. Gardner Dickinson and Ray Floyd were next at 141, Dickinson blew to a 74 and Floyd took a 73.

Don Bies, Mike Souchak and R. H. Sikes were even par 142. Bies, a slim club pro from Seattle, had a 71 Friday. Souchak a 72, and Sikes a 71.

Defending champion Bobby Nichols was all but out of it with his 74-74-159. Mason Rudolph, one of the first-round stars, ballooned to a 76 for a 143. Sam Snead went up to 75 for 143 and U.S. Open champion Gary Player shot 72-74-146.

TOMMY AARON  
Continues Pace In PGA.

Seventy-seven made the half-way cut for the final two rounds, with 151 needed. Among those who missed were seven ex-PGA champions — Jim Barnes, 152; Jerry Barber, 153; Henry Picard, 156; Bob Rosburg, 157; and Denny Shute, 163.

## Errors Lead To Spahnnie's Downfall In Loss To Phils

By MIKE RATHET  
Associated Press Sports Writer  
Warren the Wanderer may have found where the Wonder went.

Flashing some of the form that earned him the Wonder tag, San Francisco's 44-year-old Warren Spahn came away a loser as Philadelphia edged the Giants 3-2 Friday night but matched his highest strikeout total in more than four years.

You have to go back to May 1961 — he won 21 games that year — to find a similar performance by Spahn, who struck out nine Phillies and had a four-hit shutout before a seventh-inning error led to three unearned runs and his 14th loss of the season.

The loss, dropped San Francisco 2½ games behind the front-running Los Angeles Dodgers, who defeated Pittsburgh 3-1. Third-place Milwaukee, two percentage points behind the Giants, belted the Chicago Cubs 8-3. St. Louis whipped Cincinnati 7-2 and Houston defeated the Mets 3-2.

The Giants built a 2-0 lead for Spahn on second-inning singles by Len Gabrielson, Tom Haller and Hal Lanier and Jim Hart's fourth-inning homer. But Dick Schofield's throwing error on Bobby Wine's grounder paved the way for Spahn's exit and the three unearned runs.

The victory went to Bo Belinsky, who brought his record to 4-8 with two hitless innings of relief work.

Claude Osteen checked the Pirates on six hits and contributed two hits of his own to the Dodgers attack as they defeated Bob Veale for the first time in four tries this season.

Veale, now 12-9, was touched for two runs in the second inning on a single by Lou Johnson. Jeff Torborg and a bases-loaded walk to Jim Gilliam.

Johnson singled in the final run in the fifth.

Osteen, now 10-11, lost his shutout in the seventh when Donn Clendenon doubled and Bill Mazeroski singled.

Gene Oliver slammed a pair of two-run homers and Eddie Mathews connected for another two-run shot as the Braves rolled to their 23rd victory in the last 32 games.

Denny Lemaster stopped the Cubs on six hits and struck out 13 as he gained his fifth victory against nine losses.

Wildness beat Cincinnati's Jim Maloney, who lost his sixth game against 13 victories when two walks, a wild pitch and Curt Flood's single produced the tie-breaking run for the Cardinals in the seventh inning. Flood then padded the margin with a three-run homer in the eighth.

The Cardinals had scored their first two runs without a hit off Maloney, who was charged with five walks and three wild pitches in 6-1-3 innings.

The Astros scored an unearned run in the ninth inning after Joe Morgan reached second base when left fielder Jim Hickman dropped his fly ball. After two intentional walks filled the bases, Rusty Staub singled Morgan home.

The South bounced back in the second period when Tom Rice, a guard from Lima Senior, intercepted a Belden toss on the North 40 and returned it to the Yankee 33. The Rebels needed 13 plays to cover the distance with Gahanna's Bob Glover going the final two for the score.

On the try for the two-point equalizer, Pledger bolted through from his defensive half-back post to nail quarterback Verbie Walder of Dayton Roth as the latter faded back to pass.

Pledger was pressed into offensive action in the fourth period when Gladieux suffered an ankle injury. He promptly sped 32 yards that ignited an 80-yard march in nine plays, giving the Yanks an insurmountable lead.

Campbell, who tallied the last TD on a one-yard buck, picked up 58 yards in 12 carries. He led the North's running game that netted 196 yards.

A hard-nosed Yankee defense limited the Rebels to 52 yards rushing, only 12 in the second half.

The victory evened the 20-game series at nine games apiece. There have been two deadlocks in the annual summer classic.

### Bruce Guides Yanks To 16-6 Victory

By HAL PARIS  
CANTON, Ohio (AP) — The North All-stars may have come up with a fool-proof formula for winning their annual football clash with their high school neighbors from the south.

The system? Get a star k County coach to direct the Yanks.

Earle Bruce, Massillon's scholastic coach of the year, turned in the honors Friday night, guiding the northerners to a 16-6 triumph over the South before 17,759 in Fawcett Stadium.

It was the first victory for the Yanks since 1960 when Leo Strang, then of Massillon and now at Kent State University, was in charge as the North won, 18-8.

Bruce thus continued a tradition which has seen the Yanks win six times and the once in the seven games coached by Stark County mentors.

Bruce, who has a 32-1 game winning streak going, won his personal duel with Bob Lewis, the popular Wyoming coach, who piloted the Rebels. Lewis has won 38 in a row, the longest string in the state.

Martin let a Hoyt Wilhelm pitch get away with the bases loaded for a passed ball and a run. Reliever Bob Duliba, who scored the run, held the White Sox to two hits in the final 3-2-3 innings.

The Yankees again pulled within one game of the 500 mark — they haven't been at 500 since May. Steve Hamilton relieved starter Jack Cullen with the bases loaded and one out in the seventh inning and induced Dick Green to hit into a double play. Clete Boyer drove in two runs with a homer and a single.

Dick McAuliffe hit a two-run homer in the second inning, and Denny McLain pitched out of trouble in the middle innings for Detroit's victory over the Angels. Jose Cardenal tried to steal home with the tying run in the seventh but didn't make it.

## Handshakes In Viet Nam

### U.S. Paratroopers Run Into Primitive People

PLEI HO DRONG, South Viet Nam (AP) — Searching for Communist guerrillas in a tribal village, U.S. paratroopers ran into some of the world's most primitive people.

The suspenseful encounter Friday ended in a round of handshakes.

The 28-man unit from the 1st Battalion of the 173rd Airborne Brigade went in helicopters to check out the Montagnard village south of contested Route 19 in the highlands. Route 19 connects Pleiku and the besieged special forces camp at Duc Co.

An armored unit previously had been stopped by a blown-out bridge over the Ia Drang River and by automatic weapons fire.

The paratroopers moved cautiously toward the village, gripping their rifles.

Forty grass shacks sat on stilts about four feet off the ground. Two of the huts had been set afire by rockets from a helicopter flying support.

Then there were shouts from the head of the column. Two hands appeared from a hole in the ground, followed by long, bushy hair. Finally a man appeared clad only in an old French military coat and a loin cloth.

Sgt. James L. Walters of Muskegon, Mich., the lead man, pointed his automatic weapon at the emerging figure. Another figure came out of the tiny hole. Then another and another. In all, 11 tiny figures emerged from the bunker.

Three were children and one an old man with a goatee. The old man extended his left hand as if to shake hands and was holding it with his right. This is an ancient tribal gesture to show that his feelings came from the heart.

But no one moved to shake his hand. The paratroopers still held their rifles at the ready.

Finally, a tall Negro sergeant slung his automatic weapon over his shoulder and gripped

the old man's hand. The tribesmen nearly wept with delight and embraced the leading men of the platoon.

To show there were no hard feelings, one village elder lit the cigarette offered him by a paratrooper from the flames of a burning hut.

The chief waved his hand and a bevy of long-haired, bare-chested women walked out of the tall elephant grass. They had children and cattle tied to them with ropes.

An American offered one of the women a spoon. She promptly wove it into her hair as a decoration.

A woman tried to open a can of chicken and noodles with her teeth. A sergeant gave her a can opener and she put it to work scratching lice in her hair.

The platoon left with another round of handshaking. And the people who had cowered in a hole waved and shouted as the choppers rose from the jungle clearing.

## Hints from Heloise

— By Heloise Cruse —

Dear Heloise: I'm grateful for the many splendid hints in your column, particularly the idea of washing windows with kerosene and water.

For small jobs, especially since we have youngsters who seem to forget fingerprints on the windows constantly, I use a spray bottle with a mixture of water and kerosene.

It's always ready for small quickie jobs. After squirting some on, just use a washcloth or small terry towel to dry windows.

Be sure to label the bottle so others will know what it contains.

JANET S.

Janet that's a great idea! Another nice thing about it is that the kerosene - water mixture doesn't get dirty like it does when you dip your cleaning cloth into it.

Use approximately one-fourth cup kerosene to one pint water when you put it in a plunger-type bottle. Be sure to shake the bottle before using.

Thanks a bushel and a peck. HELOISE.

DEAR HELOISE: Here's a hint for busy mothers with new babies, and the problem of cooling too hot bottles:

After preparing the baby's formula, I place the excess formula into a previously sterilized jar and keep it in the refrigerator.

If, while warming a bottle, it becomes too hot, I place a small amount of the cold formula in the bottle, thereby cooling the milk instantly.

I also keep a jar of cold sterilized water to be used for the same purpose.

This eliminates the tedious ordeal of holding the too hot bottle under the water faucet to cool.

DEE EDENS.

LETTER OF LAUGHTER: DEAR HELOISE: I have a useful (?) hint for the manufacturers of jeans. Why don't they sell boys' jeans in red clay color? It sure would cut down on the laundry!

MRS. GABBAMONTE.

Absolutely fabulous! And that mayonnaise jar will hold one can of tuna fish.

Bless you for the idea. HELOISE.

DEAR HELOISE: When it became necessary for me to sleep with my 3-year-old grandson, he would turn crosswise in the bed and let me have his heels all night... and they were busy heels! Result: no sleep for Grandma.

We made what we call a "bumper," and there is no more disturbance.

We double a blanket, roll it, then roll a folded sheet over that, tying it at both ends and place this bumper between us.

Relations Being Broken

# U.S., Congo Are Closing Embassies In Each Capital

WASHINGTON (AP) — The United States and the Congo Republic-Brazzaville are closing their embassies in each other's capitals. This all but technical means breaking relations.

The United States acted first, protesting what it called harassment of U.S. officials. The Congolese charge d'affaires in Washington, Andre Loufoua, was handed a note Friday saying that "this course of conduct on the part of the government of the Congo has made it impossible for the government of the United States to maintain its diplomatic and consular representation."

Loufoua later informed the State Department his government is withdrawing its embassy personnel from Washington to New York, where presumably they will join Congo - Brazzaville's United Nations delegation.

The country, headed by a left-leaning government, is the former French Congo colony. The other Congo republic, the former Belgian possession with Leopoldville for its capital, is not involved in the dispute.

The State Department said in the note handed Loufoua: "Within the past nine months there have been three instances of serious mistreatment by the Congolese authorities of American diplomats and officials."

The department gave this account of the instances:

—William K. Mackey, economic officer at the U.S. Em-

## Lima Shawnee Placed

### On 2 Years Probation

LIMA, Ohio (AP)—The Ohio High School Athletic Association informed Lima Shawnee High School Friday that it was being placed on two years' probation for violating association rules.

The action followed a hearing Wednesday at which former Shawnee athletic director Bill Byerly lodged the charges.

Commissioner Paul E. Landis in a letter to principal Kenneth Lusk, said the action was based on:

Unauthorized personnel being on the players' bench during basketball games, use of a white-painted basketball as a volleyball in a program for basketball players prior to the basketball season, and violation of the football five-quarter rule.

## Johnson Sets Oct. 9

### As Leif Ericson Day

JOHNSON CITY, Tex. (AP) — President Johnson has proclaimed Oct. 9 Leif Ericson Day and called upon the American people to pay homage to "this bold explorer."

"It is particularly fitting to give national recognition to this bold explorer today," Johnson said at the Texas White House Friday, "when men of similar courage and resourcefulness are challenging the equally formidable unknowns of our time."

Ericson led an expedition of Norsemen to the North American continent nearly a thousand years ago.

## Johnson And Ghana's

### Head Exchange Notes

JOHNSON CITY, Tex. (AP) — President Johnson and President Kwame Nkrumah of Ghana have engaged in a new exchange of letters, the White House says.

But nothing in the messages, press secretary Bill D. Moyers told newsmen Friday, "changes the immediate prospects in South Viet Nam."

Moyers added that the correspondence was "simply a further exchange of views on the situation in Viet Nam." He said Nkrumah had requested that his message be kept quiet.

It was the second message the African leader had sent Johnson within a week.

## President Gets Bill Involving Draft Cards

WASHINGTON (AP) — President Johnson has received a bill that would provide stiff penalties for willful destruction or mutilation of Selective Service registration cards.

Congressional action on the measure was completed Friday when the Senate okayed it by a voice vote. The bill was rushed through both houses after demonstrations protesting U.S. involvement in the Vietnamese war.

The bill would provide fines up to \$10,000 or jail sentences up to five years upon conviction.

Relations Being Broken

U.S., Congo Are Closing Embassies In Each Capital

WASHINGTON (AP) — The United States and the Congo Republic-Brazzaville are closing their embassies in each other's capitals. This all but technically means breaking relations.

The United States acted first, protesting what it called harassment of U.S. officials. The Congolese charge d'affaires in Washington, Andre Loufoua, was handed a note Friday saying that "this course of conduct on the part of the government of the Congo has made it impossible for the government of the United States to maintain its diplomatic and consular representation."

Loufoua later informed the State Department his government is withdrawing its embassy personnel from Washington to New York, where presumably they will join Congo-Brazzaville's United Nations delegation.

The country, headed by a leftward-leaning government, is the former French Congo colony. The other Congo republic, the former Belgian possession with Leopoldville for its capital, is not involved in the dispute.

The State Department said in the note handed Loufoua: "Within the past nine months there have been three instances of serious mistreatment by the Congolese authorities of American diplomats and officials."

The department gave this account of the instances:

—William K. Mackey, economic officer at the U.S. Embassy in Leopoldville.

Lima Shawnee Placed

On 2 Years Probation

LIMA, Ohio (AP)—The Ohio High School Athletic Association informed Lima Shawnee High School Friday that it was being placed on two years' probation for violating association rules.

The action followed a hearing Wednesday at which former Shawnee athletic director Bill Byerly lodged the charges.

Commissioner Paul E. Landis in a letter to principal Kenneth Lusk, said the action was based on:

Unauthorized personnel being on the players' bench during basketball games, use of a white-painted basketball as a volleyball in a program for basketball players prior to the basketball season, and violation of the football five-quarter rule.

Johnson Sets Oct. 9

As Leif Ericson Day

JOHNSON CITY, Tex. (AP) — President Johnson has proclaimed Oct. 9 Leif Ericson Day and called upon the American people to pay homage to "this bold explorer."

"It is particularly fitting to give national recognition to this bold explorer today," Johnson said at the Texas White House Friday, "when men of similar courage and resourcefulness are challenging the equally formidable unknowns of our time."

Ericson led an expedition of Norsemen to the North American continent nearly a thousand years ago.

Johnson And Ghana's

Head Exchange Notes

JOHNSON CITY, Tex. (AP) — President Johnson and President Kwame Nkrumah of Ghana have engaged in a new exchange of letters, the White House says.

But nothing in the messages, press secretary Bill D. Moyers told newsmen Friday, "changes the immediate prospects in South Viet Nam."

Moyers added that the correspondence was "simply a further exchange of views on the situation in Viet Nam." He said Nkrumah had requested that his message be kept quiet.

It was the second message the African leader had sent Johnson within a week.

President Gets Bill

Involving Draft Cards

WASHINGTON (AP) — President Johnson has received a bill that would provide stiff penalties for willful destruction or mutilation of Selective Service registration cards.

Congressional action on the measure was completed Friday when the Senate okayed it by a voice vote. The bill was rushed through both houses after demonstrations protesting U.S. involvement in the Vietnamese war.

The bill would provide fines up to \$10,000 or jail sentences up to five years upon conviction.

Swallowed Twice

GLOSTER, Ohio (AP) — Ken Locke of Gloster and Earl Swindrick of Columbus snagged a really hungry bass. The fish took the baited hooks of both men, leading to a struggle as each tried to reel in the bass.

A Junior Editors Quiz About DRESSAGE

DRESSAGE—an art that was almost lost...

Spanish Riding School

THEN

NOW

COULDN'T WALTON

QUESTION: Why is “dressage” connected with Lippizaner horses?

ANSWER: Back in 1565, a courier was sent by Maximilian II of Austria to Spain to secure fine horses for the emperor's riding stables in Vienna. The idea was to establish a riding school to teach horsemanship to knights and nobles. A group of the famous horses of Castile and Andalusia were brought north, and so the Spanish Riding School of Vienna came into being. Later, Arabian and other fine stallions were imported. From the best of all these, a magnificent new breed came into being: the Lippizaner, the name coming from Equile Lippizano, a town where these horses were first bred. Although bred of white, the darker colors of their ancestors show when the colts are born, these being always black. (A) Dressage is the art, developed in the Spanish Riding School, of displaying the beauty of a fine horse and his gait without resorting to various tricks. In (B) youthful members of the school, still in existence, show how their stallions keep perfect step. The “Courbette” (C) can only be done by the finest horses; they jump without bringing the forelegs down. Almost lost, dressage is being revived, not only in Europe but in this country as well.

# Disabled Doesn't Mean Helpless

By JOHN TROAN  
NEA Special Writer

You needn't be a helpless invalid to qualify for a Social Security disability benefit.

However, you have to be so disabled that you can't "engage in any substantial gainful activity." In other words, it must

### 12th In A Series

be established that because of your physical or mental condition you are unable to do any kind of work for a living.

In the past, such benefits were issued only if it was shown the disability was expected to

last indefinitely or to result in death. But this has been changed, effective Sept. 1.

**NOW THE law says** — if you have a disability which (1) has lasted at least 12 months or (2) is expected to last that long or (3) is expected to result in death, you may start collecting such a benefit.

Provided, of course, you have worked long enough under Social Security to be eligible. Generally, you must have worked under Social Security at least five of the 10 years just before you became disabled.

When you apply for a disability benefit, the Social Security office gives you a special medical form to be filled out by your doctor and by hospitals and other institutions where you have been treated.

On this form they tell what has been found to be wrong with you, how severe your condition is, what medical tests have revealed, what treatments

you have received and to what degree you are unable to do such things as move about, handle objects, hear, speak, understand or reason.

**ALL THIS** — plus information about your age, education, training, skills and work experience — is sent to an agency specified by your state.

There, a team of doctors and others experienced in this field decide whether you are "disabled" within the definition of the Social Security law.

If your application is O.K'd, your benefit may start with the seventh full month of disability. And your first check would arrive the following month.

If you resume working despite your disability, you may keep drawing your benefit during a "trial work period" that can last as long as nine months. Once it is determined you are no longer disabled, you may get a benefit for three more months.

Suppose you then became disabled again? Well, you wouldn't have to put in another waiting period if (1) the new disability arises within five years after the previous one ended and (2) your new disability is expected to last at least a year or to result in death.

A special provision covers the blind. If you are totally blind (within the meaning of the Social Security law) but can still work, you may "freeze" your Social Security record. In this way, the years you earn little or nothing won't count against you — so the future benefits you draw won't be reduced.

**UNDER Social Security,** a person is regarded as blind if (1) his vision rates no better than 5-200 with glasses or (2) he has such gun-barrel vision that his "visual field" is limited to five degrees in the better eye even with glasses.

The new law also makes it easier for blind persons to collect disability benefits. This applies to persons blinded before age 31 and to jobless blind individuals 55 or older.

The size of the disability benefit depends on the worker's average earnings under Social Security. It is equal to what the worker otherwise would draw upon retiring at age 65 — even though the disability bene-

fit is payable to a worker at any age.

The wife of a disabled worker also qualifies for a benefit if she is at least 62, or if she has in her care a child under 18 or a child who became disabled before 18.

Such youngsters also are eligible for benefits. So is any child of a disabled worker who is under 22 and still in school.

Each such child gets one-half of the worker's benefit amount. The wife also draws one-half. But her benefit is reduced slightly if she applies for it before age 65 — unless she has a "disabled child" or a child under 18 in her care.

However, no family may now receive more than \$309.20 a month.

## Area Scouts Win 50-Miler Award

Two Boy Scouts and an adult leader of Toronto Presbyterian Church Troop 149 have earned the 50-Miler Award by hiking along the Appalachian Trail.

Completing the hike Wednesday were Alan Blischak, 14, Eagle Scout and senior patrol leader; Mark Holtzmann, 14, Life Scout and assistant senior patrol leader; and Michael Blischak, assistant Scoutmaster.

The hike began last Saturday, with the three getting on the trail two miles north of the Pennsylvania - Maryland border where the trail crosses Pennsylvania Highway 16, five miles east of Waynesboro. It ended 3½ miles south of the Pennsylvania Turnpike at Allen, five miles southeast of Carlisle.

The boys prepared for the trip by earning the Hiking Merit Badge. This required five 10-mile hikes and one 20-miler.

## Swimmer, 12, Wins Third British Title

**BLOCKPOOL, England (AP)** — Karen Muir, South Africa's 12-year-old swimming phenom, today held her third British championship and the honor of becoming the youngest triple winner in the 25 years of the meet.

The shy youngster who startled the swimming world by setting a world record for the 110-yard backstroke Tuesday, won the girls' 110-yard freestyle title in 1:05.9 Friday. In addition to the women's 110-yards backstroke she also captured the girls' 220-yard freestyle.

## Rotarians At Midland Hold Outdoor Meeting

A board of directors meeting, with Bill Yee, president, in charge, followed the outdoor session of the Midland Rotary Club Thursday night at the club pavilion on Murphy's Hill Rd.

The outing was attended by 22 members, who enjoyed group singing, led by William Moll. Leo Curto was program chairman.

Ernie Dostalick will present the program Thursday night at another outdoor meeting.

## Teacher Quits At Lisbon Board Selects Replacement

**LISBON** — A teacher's resignation was accepted and a replacement was hired during a special meeting of the Lisbon School Board Friday.

The board received the resignation of Mrs. Carolyn Dotson, high school Home Economics teacher, and employed Mrs. Marguerite Strader of Lisbon R.D. 3 to replace her.

Supt. Oliver H. Payne announced that for the first time the Home Economics Department will be operated on a half-day basis due to a small enrollment in the course.

He explained that Mrs. Dotson said she preferred not to

teach on a half-day basis, while Mrs. Strader favored part-time teaching.

The board also discussed the need for more musical instruments for both the junior high and high schools.

Payne presented a report on the foundation program, which would mean an increase in teacher salaries. At the last school board meeting Tuesday night, the board agreed to go along with the state legislature's decision relative to the program. Payne outlined the salary breakdown and its meaning to the village school system.

## Family Picnic, Other Events Set By Chester Lions Club

Plans for a family picnic at Rock Springs Park Aug. 29 were announced at a meeting Thursday night of the Chester Lions Club at the City Park Building.

Donald Hood was named picnic chairman.

October events, including a community broom sale, "Ladies' Night" and the official visit of the district governor, John D. Herron of New Cumberland, were discussed.

Jerry D'Angelo will be broom sale chairman and Sayre Graham chairman for the "Ladies' Night" program.

## Manufacturing Jobs In U.S. Hit 18-Million Total

**WASHINGTON (AP)** — More Americans were employed last month in manufacturing than at the height of World War II production, the Labor Department says.

Statistics released Friday show that 18,133,000 persons were employed in July, 19,000 above the previous high set in November 1943. The department said it had adjusted last month's figures to show a 90,000 seasonal increase.

The average factory work week was 41.1 hours, the highest July figure since the war. Average overtime of 3.5 hours was also a new July high. The department began keeping overtime records in 1956.

Average weekly factory earnings dropped 53 cents from June figures to \$107.68, due to the slightly shorter summer work week.

## Lions Club Here Will Hold Picnic Next Wednesday

The annual picnic for Lions Club members and their families will be held Wednesday at Pavilion 3 in Thompson Park. Members were reminded at the Friday afternoon luncheon at the Travelers Hotel.

Earl Locke, picnic chairman, said dinner will be served at 6:30 p. m. There will be games and contests.

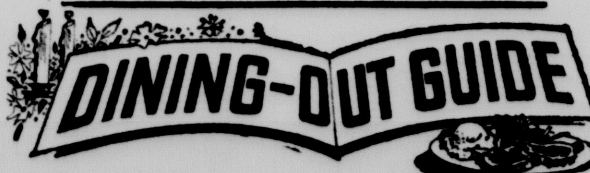

Members also were reminded of the club's annual tennis tournament next weekend at the Thompson Park courts.

Color slides of a trailer trip through the western United States and Canada were screened by Dr. J. Fraser Jackson. Donald T. Duke, president, presided.

Payne presented a report on the foundation program, which would mean an increase in teacher salaries. At the last school board meeting Tuesday night, the board agreed to go along with the state legislature's decision relative to the program. Payne outlined the salary breakdown and its meaning to the village school system.

## Family Picnic, Other Events Set By Chester Lions Club

Plans for a family picnic at Rock Springs Park Aug. 29 were announced at a meeting Thursday night of the Chester Lions Club at the City Park Building.

Donald Hood was named picnic chairman.

October events, including a community broom sale, "Ladies' Night" and the official visit of the district governor, John D. Herron of New Cumberland, were discussed.

Jerry D'Angelo will be broom sale chairman and Sayre Graham chairman for the "Ladies' Night" program.

Walter Jordan reported on plans for a \$70,000 state-wide capital fund drive to benefit the broom factory in Clarksburg. The factory employs the blind and is sponsored by the West Virginia Lions sight conservation foundation.

A report was given on a recent joint project of the Chester, Newell, New Cumberland and Weirton Lions Clubs — sending Project Head Start children to the Shrine Circus in Wheeling.

Graham, zone chairman, and Jordan, international counselor, will attend the district governors' cabinet meeting in Wheeling Sunday.

Thirteen members and one guest, Cecil Collins of Chester, attended Thursday's meeting. Anthony Tridico presided.

## Manufacturing Jobs In U.S. Hit 18-Million Total

WASHINGTON (AP) — More Americans were employed last month in manufacturing than at the height of World War II production, the Labor Department says.

Statistics released Friday show that 18,133,000 persons were employed in July, 19,000 above the previous high set in November 1943. The department said it had adjusted last month's figures to show a 90,000 seasonal increase.

The average factory work week was 41.1 hours, the highest July figure since the war. Average overtime of 3.5 hours was also a new July high. The department began keeping overtime records in 1956.

Average weekly factory earnings dropped 53 cents from June figures to \$107.68, due to the slightly shorter summer work week.

## Lions Club Here Will Hold Picnic Next Wednesday

The annual picnic for Lions Club members and their families will be held Wednesday at Pavilion 3 in Thompson Park, members were reminded at the Friday afternoon luncheon at the Travelers Hotel.

Earl Locke, picnic chairman, said dinner will be served at 6:30 p. m. There will be games and contests.

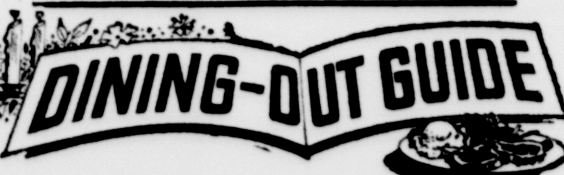

Members also were reminded of the club's annual tennis tournament next weekend at the Thompson Park courts.

Color slides of a trailer trip through the western United States and Canada were screened by Dr. J. Fraser Jackson. Donald T. Duke, president, presided.
